

**ENCLOSURE: 1760mm x 1660mm**  
**PLATFORM: 1450mm x 1410mm**  
**USABLE AREA: 1350mm x 1350mm**

IF IN DOUBT ASK

**Description:** Goods only mezzanine floor lift, with no operator access to platform for loading/unloading  
**Capacity:** 300kg uniformly distributed over platform  
**Enclosure:** Free standing for positioning adjacent to mezzanine floor  
**Gates:** electrically and mechanically interlocked  
 Enclosure extending approximately 2.3m above mezzanine floor  
 Access through gate 1.9m high  
**Controls:** Hold to run controls at both levels  
**Duty cycle:** One operation every 15 minutes  
**Power requirements:** 13 Amp, single phase, 240 Volt  
**Lift mechanism:** Direct motor on chain drive  
**Structure:** Enclosure to be three sections:  
 Standard lower section (2m high) supply fully assembled and wired with platform installed  
 Upper section (2.3m high) - standard c/w limit switch and gate interlock supplied wired with long cable lengths with plugs for easy installation.  
 Mid section - built to order to achieve height required

**Manual Handling SOLUTIONS**
