

Aluminium & Stainless Steel

Standard Stock Range

ThyssenKrupp Materials (UK)

ThyssenKrupp

Stockholding and Distribution

Managing the flow of goods between the producer and our customers is a fundamental part of our service. To do this we have invested in premises, storage and material handling equipment, as well as IT facilities and our people to ensure consistent, reliable and secure supply.

With UK strategically located processing centres, warehouses and offices, ThyssenKrupp Materials (UK) has the geographical presence to meet specific customer demands. Our integrated transportation facilitates a highly responsive and reliable delivery service.

Product Range

ThyssenKrupp Materials (UK) has extensive stocks of aluminium, stainless steel, titanium and plastics covering a wide range of European specifications.

ThyssenKrupp continually expand the range of products and services available; we are confident that we are able to supply to your specific needs either in house or from the wider ThyssenKrupp Group.

Perfecting Partnerships

Specialising in partnering with customers enables ThyssenKrupp Materials (UK) to create a unique, flexible approach to individual customer needs. Our experience and expertise in process optimisation and cost reduction makes ThyssenKrupp Materials (UK) the preferred and approved supplier to major OEMs and their supply chains worldwide.

The variety and scope of our service provides us with a broad range of capabilities which can be combined effectively to deliver intelligent solutions to customers' material, technical and logistical requirements.

Supply Solutions

ThyssenKrupp Materials (UK) can work with you to ensure flexible effective solutions to complex supply situations. Our complete service includes individual customer solutions and we work together with you to develop strategies that optimise material flow and reduce inventory costs. We can also provide complete management of the supply chain process.

Quality

ThyssenKrupp Materials (UK) is dedicated to providing our customers with a product that meets their expectations. We operate an effective, efficient quality management system meeting the requirements of ISO 9001:2008.

ThyssenKrupp Materials (UK) only use the highest quality material sourced from approved manufacturers and selected approved suppliers.

- Full material traceability is maintained at all times through our robust quality management systems.
- We are committed to a culture of continuous improvement. We monitor and measure all processes and openly communicate positive and negative findings, which we believe encourages a culture of trust, teamwork and accountability.
- All material dispatches are accompanied by a certificate of conformity which is validated by our trained quality staff against the material specification and manufacturing tolerances.

Processing and Fabrication

ThyssenKrupp Materials (UK) are able to provide a range of processing and fabrication options and have become an important link in the supply chain to many end users. The ability to supply products from semi finished components to assembled items helps our customers minimise waste and be more flexible. We are able to offer a range of services in the UK and through our European service centres.

In the event that we don't have facilities to undertake your project on site, we have an established supplier base of sub-contractors across Europe that we are able to offer a range of processing options through.

Services include:

- Polishing of sheet & tube
- Slitting
- Blanking
- Shearing
- Laser & water jet cutting
- Sawing
- Levelling
- De-burring
- Washing
- Kitting & packing
- Grinding
- First-stage machining
- Welding
- Assembly of sub-components

Approved distributor of J57S Anodising Quality Sheet

Novelis J57S is the anodising quality grade of aluminium predominantly used for decorative and architectural applications. The developed alloy composition gives you excellent bending qualities along with a guaranteed consistent anodised finish.

ThyssenKrupp Materials (UK) are approved distributors of J57S, holding a wide variety of sheet sizes from stock ranging from 1.5mm to 3mm thick, from 1000mm to 2000mm wide.

We also have access to high volumes of coil and sheet stocks via our service centre in Germany. We can supply 1mm to 4mm thick, from 1000mm to 2000mm wide available as sheet stock, or de-coiled to your required length within 10 days.

Architectural Products

etalbond® Aluminium Composite

ThyssenKrupp Materials (UK) is the sole UK distributor for etalbond®

From a wide range of colours etalbond offers solid, metallic and special effect colours, with customised colours available upon request, with a full colour match service.

Etalbond is a technologically advanced product whose unique features facilitate creative architectural design. With curved and flat surfaces in vivid colours and an elegant sense in buildings and constructions of all kinds. Attractive and flexible, etalbond is the appropriate cladding solution for interior and exterior surfaces. The material is rigid, light and durable and has good insulating properties. It is easily installed and formed into a variety of shapes. Etalbond is a first class sandwich type composite panel consisting of a non-toxic polyethylene core firmly bonded between fine aluminium facing and backside sheets.

The Products

etalbond PE – Standard version of etalbond consisting of a non-toxic polyethylene core.

etalbond LIGHT – A sandwich type aluminium composite panel for decoration and other various applications.

etalbond SLIM – A super light aluminium composite panel for digital printing, decoration and other applications.

Advantages

- Extraordinary flatness
- Diverse range of brilliant colours and finishes
- Impact resistant and break-proof
- Outstanding strength to weight ratio
- Increased rigidity
- Simple forming techniques
- Rapid installation
- Resistant to extreme weather conditions (exposure and temperature)
- Excellent UV characteristics, retaining colour after extended exposure
- Easy maintenance

Aluminium Bespoke Extrusions

Working closely with customers...

ThyssenKrupp Materials (UK) is dedicated to working closely with both our customers and approved mills to ensure that your aluminium extrusion design becomes reality. Our infrastructure, resources and experience enable us to offer a complete aluminium extrusions supply service right from the design stage including stockholding, JIT delivery, stock management, cutting and fabrication.

Aluminium extrusion that we supply is shipped worldwide and includes industries such as:

- Transport
- Lighting
- Shutters and Security
- Modular Systems
- Rainwater
- Catering
- Greenhouse
- Construction

Our service can deliver whatever the customer requires; with ThyssenKrupp Materials (UK) working with customers from beginning to end to ensure the customer's design is the most efficient and economic option available. We offer years of technical expertise, continual advice and guidance, design optimisation to reduce costs, stocking of items for flexible call off and a variety of added value processing options.

Aluminium is becoming more popular due to its versatility, strength and environmental sustainability and for this reason, we have invested heavily to ensure that we offer the quality and service that you would expect from a global leader in material supply.

Aluminium Fabrication

At ThyssenKrupp Materials, we are also able to offer a full range of fabrication to suit the needs of our customers. From turning your drawing into a custom profile, we can stock, hold the material and deliver just in time, a fully fabricated part either from our own bespoke warehouse or via our dedicated stockholding facilities around the UK.

Why choose ThyssenKrupp Materials (UK)

- Backing from our global parent company ThyssenKrupp AG
- ISO 9001 approved quality systems
- Stockholding and just in time deliveries via our national Logistics Division
- Dedicated fabrication facility on site at our central warehouse facility
- Global sourcing of aluminium extrusions via our approved extrusion partners
- Flexibility of UK production
- Competitive prices

Cutting

ThyssenKrupp Materials (UK) have a variety of saws capable of cutting profiles up to 420mm wide and lengths from 15mm to 7000mm.

- Repetitive high volume contracts
- Small batches to one off jobs
- Sensitive surface finishes
- Accurate double head mitre saws

We have a total of 7 saws of various types to cut any job.

Welding

We are able to offer MIG and TIG welded fabrications to BS EN ISO 9606-2. We are also able to offer a repair service for existing products.

Punching & Drilling

We are able to punch or drill holes, slots and shapes and we have the following machines on site:

- 2 x power presses up to 20 tonnes
- 1 x 125 tonne brake press with 3 metre bed
- 3 x fly presses
- Tapping machine
- Various bench drilling machines

Finishing

After cutting or fabrication we can finish your job with the following processes:

- De-burring
- Polishing
- Anodising
- Painting
- Screen printing

CNC / Machining

We have 4 machines on site with a variety of capabilities:

HAAS VFI

Max. Size 660 x 356mm

- X axis – 508mm
- Y axis – 406mm
- Z axis – 508mm

2 x Matsuura V500s

381 x 833mm

- X axis – 808mm
- Y axis – 355mm
- Z axis – 450mm

Mecal MC 305 FAT

3m 4 axis CNC

- X axis – 3425mm
- Y axis – 400mm
- Z axis – 400mm

Packing

We can accommodate a wide range of packing specifications including specific labelling requirements. This includes boxes, metal stillages or bins and bundles.
