

Polypropylene Dispensing Tips

Product Description

Flexible polypropylene dispensing tips in tube lengths of 1.5" are manufactured industrial grade safe for use to 100 psi and are moulded from silicone free materials to prevent any contamination of adhesives. Luer locking hubs for secure attachment to syringe barrel. Colour coded shafts in gauge sizes from 15 to 25.

Typical Applications

Use these polypro tips for dispensing most adhesives, gels, pastes, epoxies, RTVs, silicones, sealants, compounds, solder pastes, solvents, inks, activators, primers and chemicals. The long polypro shaft is especially suited for potting applications and the soft plastic will not damage sensitive substrates.

Most ADL components are available to order from stock. Products are of the highest quality and compatible with most dispensing systems and valves. We also stock a range of high quality industrial grade Cyanoacrylate adhesives in 20g, 50g and 500g HDPE bottles. Please contact us if you require product samples or a quotation.

The data, information and values contained in this Technical Data Sheet have been obtained by specific tests conducted in a controlled environment, and should be used for guidance purposes only. Although we believe them to be reliable and accurate, users should always conduct their own tests in their specific working conditions to ensure that the product is suitable and effective for use. It is the user's sole responsibility to determine the suitability of the product for the application. Adhesive Dispensing Ltd cannot be held responsible for the results of procedures undertaken elsewhere, nor for the safeguarding of personnel or property, all of which is the duty of the user. Suitability of products or methods is discretionary. Therefore, warranties or implied usage obligations should not be attributed to, and are not the responsibility of, Adhesive Dispensing Ltd. Adhesive Dispensing Ltd are not liable for any financial loss or other damages incurred by the user as a result of the use of this product. Product dimensions and design are approximate and could be subject to change, without notice.

Part TSP25-1-1/2	25G 1.5" Red 0.010" ID

Packaging

Polypro tips are supplied in boxes of 50. Bulk packs of 1000 are also available.

Pricing and Lead Times

Polypro tips are competitively priced whether in a single box of 50 or in bulk packs. We hold extensive stocks and can usually ship for next day deliveries.

Health & Safety in Use

Polypro tips are safe and hygienic. Plastics are silicone free and components can be used up to 100 psi fluid pressures.

Benefits

- Polypro semi rigid shafts
- Safe to use up to 100 psi
- Silicone free plastics
- Luer locking hubs
- Ideal for potting applications
- Colour coded shafts
- Available from stock

Options

For controlled dispensing, we recommend the use of our TS250 or TS350 pneumatic digital syringe dispensers or our range of benchtop XYZ robots.
