

Precision General Purpose Tips

Product Description

High precision general purpose dispensing tips in tube lengths of 0.5" and 1" are industrial grade safe to 100 psi and are manufactured from silicone free plastics to prevent any contamination of adhesives. Double helix locking threads for secure attachment to syringe barrel. Colour coded in gauge sizes from 14 to 32.

Typical Applications

Use these precision tips for dispensing most adhesives, gels, pastes, epoxies, RTVs, silicones, sealants, compounds, solder pastes, solvents, inks, activators, primers and chemicals. The colour coded hubs offer UV filter protection for UV cure adhesives.

Color	Gauge	I.D. (inches)	I.D. (mm)
Olive	14	0.063	1.600
Amber	15	0.054	1.371
Green	18	0.033	0.838
Pink	20	0.024	0.610
Purple	21	0.020	0.508
Blue	22	0.016	0.406
Orange	23	0.013	0.330
Red	25	0.010	0.254
Clear	27	0.008	0.203
Lavender	30	0.006	0.152
Yellow	32	0.004	0.102

Most ADL components are available to order from stock. Products are of the highest quality and compatible with most dispensing systems and valves. We also stock a range of high quality industrial grade Cyanoacrylate adhesives in 20g, 50g and 500g HDPE bottles. Please contact us if you require product samples or a quotation.

The data, information and values contained in this Technical Data Sheet have been obtained by specific tests conducted in a controlled environment, and should be used for guidance purposes only. Although we believe them to be reliable and accurate, users should always conduct their own tests in their specific working conditions to ensure that the product is suitable and effective for use. It is the user's sole responsibility to determine the suitability of the product for the application. Adhesive Dispensing Ltd cannot be held responsible for the results of procedures undertaken elsewhere, nor for the safeguarding of personnel or property, all of which is the duty of the user. Suitability of products or methods is discretionary. Therefore, warranties or implied usage obligations should not be attributed to, and are not the responsibility of, Adhesive Dispensing Ltd. Adhesive Dispensing Ltd are not liable for any financial loss or other damages incurred by the user as a result of the use of this product. Product dimensions and design are approximate and could be subject to change, without notice.

Packaging

TE tips are supplied in boxes of 50. Bulk packs of 1000 are also available.

Pricing and Lead Times

TE tips are competitively priced whether in a single box of 50 or in bulk packs. We hold extensive stocks and can usually ship for next day deliveries.

Health & Safety in Use

TE tips are safe and hygienic. Plastics are silicone free and components can be used up to 100 psi fluid pressures..

Benefits

- Burr free stainless steel shafts
- Safe to use up to 100 psi
- Silicone free plastics
- Double helix locking hubs
