- 1 x pairs PVC Gloves
- 2 x Disposal Bags
- 2 x Bag Ties
- 1 x Instructions & Contents
- 1 x Drum Container

The 110 Litre Jetty Marine Spill Kit is the easiest kit to deploy around a marina or harbour close to spill prone areas.

These spill kits are your first line of defence when a spill occurs enabling the user to boom the area where an oil or fuel spill has occurred. It will provide a quick and effective response to the accident until a larger kit, if needed, can be brought to the site. The kit has everything needed to cope with an emergency spill. It has Marine Booms, oil only pillows, oil and fuel only absorbent pads all contained in a weather proof container.

The container is easily moved by hand for quick deployment.
