

“Focus on Training for Excellence in Electronics Industry”

K B Soldering Technology Ltd

Certified IPC Trainer & Consultant

Subject: Electro Static Discharge (ESD) Course

Objective

The purpose of this course is to provide effective ESD training for all staff within your company where electronic components feature in their day to day work.

At the end of this course your staff will understand why your company takes ESD precautions and what their individual responsibility is in maintaining those precautions.

A sequence of lectures, DVD's, examples and examination will present the technical material in ESD.

Testing will consist of a multiple choice examination.

All employees who attend the course will be supplied with a certificate of attendance.

The course content will include:

- **Basic facts about ESD**
- **Procedures and precautions against ESD**
- **How you can protect against ESD**
- **Test**

What I Supply: **Stationary and certificates**

Course Duration: **approx. 1½hrs**

Facilities Required:

Meeting room with:

- **Projector & screen or LCD, both with laptop connections, if not available I can supply my own equipment.**
- **Flipchart**
