

**Innovation 2010!**

- Time-consuming pump cleaning?
- Dried out inlet valves?
- Paint escaping during transport?

## PumpRunner

Quick - Clean - Easy!

- Quick commissioning
- Clean transport
- Easy cleaning

# WAGNER PumpRunner

Saves valuable working time right away with the new practical helper for piston and diaphragm pumps.

## Quick commissioning

No drying out and sticking of the valves: If the unit is not used for a lengthy period, the airtight conservation preserves its operating capability. It can also be put back into operation immediately after long work breaks or a change of building site.

## Clean transport

The PumpRunner encloses the intake system absolutely airtight and reliably prevents the escape of paint. A spotlessly clean matter for your vehicle fleet!

## Easy cleaning

It doesn't get any easier: The PumpRunner is placed over the intake tube, filled with water and secured airtight, with the two clamping levers. In addition we recommend EasyClean, as a useful aid to cleaning and conserving.

**WAGNER PumpRunner** and your pump will be ready for use at all times.

Order the WAGNER PumpRunner now under Article No.: 2306 987

And besides: EasyClean, Cleaning and Conservation agent, 118 ml, Article No: 0508 620

Or: EasyClean, Cleaning and Conservation agent, 1 l, Article No: 0508 281

## Simply do it – with WAGNER!

For decades WAGNER has been among the leading producers of equipment for the machine application of paints, lacquers and plasters. The product palette stretches from compact paint spraying units for the home handyman though professional painter equipment right up to large painting plant for industry.

The basis for our work has always been the intensive dialogue with customers, material manufacturers and market partners. On this basis WAGNER develops equipment which takes you a decisive step further in your daily work.
