● Reliable

All paint wetted parts are made of stainless steel which leads to high operating reliability.

● Economical

The Wildcat will work with an air inlet pressure as low as > 1 bar.

● Easy cleaning

The user friendly build of the Wildcat 18-40 allows easy cleaning and maintenance of the pump.

Wildcat 18-40

With the ergonomic AC 4600 P AirCoat gun you can achieve **perfect painting results**. The free-running air and material swivel joints and the filter housing which can be changed by hand make it **user friendly**.

Thanks to its small cross section of DN3 the flexible twin hose has only a little material in the hose and is **particularly easy** to handle. It is protected by a robust casing.

The Wildcat 18-40 is also available as a Spraypack with top reservoir. Practical for the application of small quantities and for **fast colour changes**.

The **easily maintained**. The fluid section is easily replaceable. Large inlet and outlet valves enable an optimal material flow

Material applied directly from the **original container**.

This equipment is suitable for use in potentially explosive areas in accordance with the guideline 94/9/CE (ATEX 95).
