multiPANEL
the collection

...for the home & for the trade

The **multiPANEL** collection is a family of waterproof walls, floors and ceilings ideal for **bathrooms**, **shower areas**, **kitchens** and all around the home. Easy to install and even easier to maintain, the cost-effective ranges offer endless opportunities for both renovation and new-build.

Grant Westfield has an enviable reputation in the manufacture of commercial cubicles, wall lining and access systems*.

Based on this experience and knowledge, the **multiPANEL** collection has been designed to meet the needs of the commercial market.

multiPANEL

the luxury alternative to tiling

Whether you are fed up of tile grouting, or are simply looking for a new and fresh look for your bathroom, **multiPANEL** waterproof wall panels provide the perfect solution. Our selection of 32 decors range from traditional stones, to sparkles, to striking modern designs, in gloss and textured finishes.

The panels can be applied to timber battens or directly bonded to the wall, with a range of aluminium sections permitting quick and easy installation. Our precisely engineered Hydro-lock tongue and groove joint (*see p.20*) allows a tight and discrete joint to be created between panels. Watertight sealing of **multiPANEL** is achieved using silicone sealant at all joints.

As an alternative to using end caps, panels can be lipped with a PVC edging to compliment your chosen décor. Bath/shower tray seal kits, access kits, high grab adhesive and sealant and all-in-one kits for showers or baths (*see p.20-21*) are all available to order. In addition to bathrooms, the versatile and durable panels are suitable for a variety of domestic and commercial applications.

tilePANEL
tile effect waterproof walls

tilePANEL is designed with simulated tile effects, allowing you to enjoy the authentic look of tiles without the inconvenience of grout. As the completely waterproof panels are only 3mm thick, they are perfect for fitting over existing tiles for an attractive, cost-effective refurbishment.

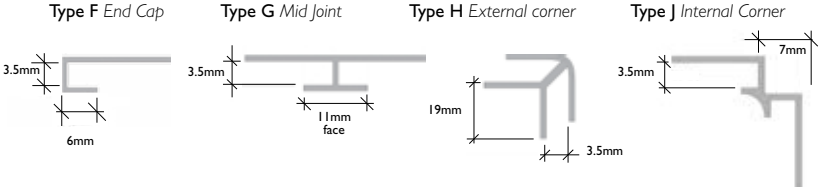
The panels are manufactured with two styles of grout lines that ensure mould free surfaces, with minimal maintenance; the embossed, square tile version is supplied on double-faced panels, with a small glossy tile on one side, and a larger matt tile on the reverse. The bevelled **tilePANEL** comes with a 30x20cm rectangular tile on single-faced panels. See p.24 for our choice of colours.

tilePANEL can be either be ordered in individual panels and profiles, or as an all in one shower kit (see *p. 21*). High grab panel adhesive and silicone sealant is also available to order.

black slate **tilePANEL** (embossed, mosaic /large)

- ✓ 3 tile sizes
- ✓ Install over existing tiles
- ✓ Completely waterproof
- ✓ Only 3mm thick
- ✓ Authentic tile effects

METAL SECTION RANGE



Supplied in 2.5m lengths. See p.25 for colours

twinFLOOR® stick

the floating, self-bond vinyl floor

twinFLOORstick is a waterproof vinyl flooring range consisting of two layers with an innovative overlapping GlueStrip assembly. This enables quick and simple fitting without the cost associated with installation of comparable quality vinyl floors.

With a 0.3mm wear layer, and hard-wearing surface, **twinFLOORstick** tiles and planks are perfect for domestic and light commercial waterproof flooring. To make the most of **twinFLOORstick,** home-care kits are available to order *(see p.19)*.

canadian cedar twinFLOORstick

Fitting twinFLOORstick really is as simple as...

- ✓ Overlapping GlueStrip assembly
- ✓ No adhesive required
- ✓ Easy to cut and fit
- ✓ Completely waterproof
- ✓ Replace individual tiles/planks

TECHNICAL INFORMATION

- 3.8mm vinyl
- 0.3mm wear layer
- R10 slip resistance
- 2.23m² coverage per pack
- Wood planks supplied in packs of 16 pieces, each 36" x 6" (914 x 152mm)
- Wood planks are supplied with a micro-bevelled edge
- Tiles are supplied in packs of 8 pieces, each 36" x 12" (914 x 304mm)
- Available in 10 colours; 5 wood plank and 5 tile effect (see *p. 26*)

twinFLOOR® click

the floating, self-lock vinyl floor

twinFLOORclick is the latest generation of floating vinyl flooring from Grant Westfield, and combines the benefits of **twinFLOORstick** with the new 'EasyClic' locking profile for a fast, dry installation. The waterproof floor has a tough 0.5mm wear layer and is coated with ceramic beads for added wear and durability, making it ideal for commercial as well as domestic use.

twinFLOORclick planks are manufactured with bevelled edges and with a deep, registered embossing to create an authentic real wood effect. **twinFLOORclick** tiles are available in beautiful natural stone patterns and come with a bevel that adds clarity and distinction to the finished effect. To ensure complete engagement of the inter-locking planks and tiles, the **LOCKBLOCK** is available to order (see *p. 19*)

ceilingPANEL
the light and easy PVC ceiling

ceilingPANEL provides a moisture resistant, decorative alternative to painting ceilings, eliminating the possibility of flaking paint in bathrooms. The tongue and groove panels are quick and easy to install, wipe clean in seconds and are the ideal partner for the Grant Westfield wall panelling ranges.

ceilingPANEL profiles allow neat perimeters to be created, and can be used as decorative in-fills between panels. With an opaque face, **ceilingPANEL** is suitable for domestic and commercial applications.

white gloss **ceilingPANEL**
with Type P clip-in trims

ceilingPANEL is supplied in tongue & groove panels which simply slot together.

- ✓ Impervious to moisture
- ✓ Class 1 fire rating
- ✓ Tongue and groove assembly
- ✓ Easy to handle and install
- ✓ Economic

PVC SECTION RANGE

- Class 1 surface spread of flame
- 2700 x 250mm tongue and grooved panels
- 2.7m² coverage per pack
- Do not use in areas subject to temperatures over 60°c (keep out of direct sunlight)
- Available in 6 colours (see *p.25*)

patina bronze vanity top

multiPANEL vanity tops

bull-nosed shelving elements

Simple, elegant and durable, **multiPANEL vanity tops** are available in 27 matching **multiPANEL** finishes. The option to contrast or co-ordinate with **multiPANEL** or **tilePANEL** wall panels produces stunning results.

multiPANEL vanity tops allow you to create beautiful vanity and shelving areas, and the gentle rolled front edge offers a unique blend of warmth and luxury certain to complement any bathroom suite.

travertine vanity top

TECHNICAL INFORMATION

- 25mm MR MDF core
- Bonded with post-forming grade laminate and white balancing laminate
- 2400 x 380 x 27mm as standard
- Tops can be cut to size or manufactured to a greater depth than 380mm
- Available in 27 **multiPANEL** colours (denoted as V on *p. 22-23*)

hydro**STONE**

solid surface vanity tops

hydroSTONE is a premium bathroom surface solution constructed from solid modified acrylic, boasting the striking finish solid surface material is renowned for, at the competitive price you expect from the **multiPANEL** collection. At 25mm deep, and with 3mm radiused edges and corners completing a stunning visual appeal, **hydroSTONE** is certain to enhance any bathroom. The versatile surface is most commonly used as a vanity top for back-to-wall furniture, and to create feature shelving.

Whilst **hydroSTONE** solid surface tops are harder than wood or laminate, they can be cut with a jig saw, with bowl cut-outs and radiused edges created with a router. What's more, the pattern runs throughout the material, therefore should scratching occur, they can be sanded out to preserve the beautiful finish.

cracknel **hydroSTONE**

TECHNICAL INFORMATION

- 25mm solid modified acrylic
- 2110 x 370 x 25mm as standard
- Supplied as 'blanks' without bowl cut-outs
- Available in 5 designs (see *p.27*)

liquorice **hydroSTONE**

soundPANEL

converting wall panels into speakers

Say good-bye to suction pad radios falling on your feet in the shower! And say hello to the sophisticated future of bathroom audio. With **soundPANEL**, 2 gel-audio™ speakers are attached to the back of a wall or ceiling panel, reverberating sound waves through the panel core - effectively turning it into a speaker!

A **soundPANEL** kit comes complete with built-in FM radio, and is MP3 compatible. No visible wires, no apertures, no grilles - just stunning panel finishes and 100% concealed, high quality audio!

PACK CONTENTS

- 2 Gel Audio Speaker Units
- 20 Watt (RMS) per channel amp with built in FM Radio
- Power supply
- Input jack fitted socket
- 10m speaker cable
- 0.5m jack to jack cable
- Remote Control
- Full installation instructions

twinFLOOR accessories

twinFLOORstick homecare kits

Once your new **twinFLOORstick** has been laid, you will naturally want to preserve it's beautiful appearance and condition. Our home-care kit will allow you to ensure best installation, preservation, and in case of damage, reparation of **twinFLOORstick**.

CONTENTS

seam roller
1L **twinFLOOR** polish/cleaner
5m repair tape
felt furniture protectors
care and maintenance guidelines

LOCKBLOCK

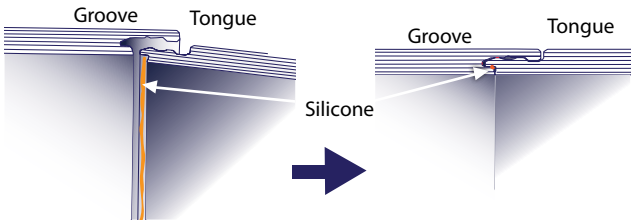
LOCKBLOCK has been specifically designed to be used with **twinFLOORclick** to ensure complete engagement of the inter-locking profile. The edge detail of **LOCKBLOCK** slides into and over the tongue and groove edge profile of **twinFLOORclick**, allowing you to tap along the full length of each plank or tile, without damaging your flooring.

Look how easy it is!

Visit www.multipanel.co.uk or scan the code below to view our online demos for hints and tips for laying your floor, along with other **multiPANEL** collection products. Full installation guidelines can be viewed as e-books or downloaded.

HYDRO-LOCK

To join two panels together without a Type D mid-joint, **multiPANEL** can be manufactured with our precisely engineered hydro-lock edge detail to create an extremely tight, almost invisible joint.



TECHNICAL INFORMATION

- When manufacturing hydro-lock joints, 18.5mm is lost from the original panel width, e.g,
  2400x598mm = 2400x579.5mm finished face size
  2400x1200mm = 2400x1181.5mm finished face size
- Hydro-lock panels are supplied as standard with a tongued edge and a grooved edge
- Hydro-lock panels should be conditioned at normal room temperature for 48-72 hours prior to installation, particularly during cold spells.
- Panels should be fitted 'grooved' edge first, and the 'tongued' edge of the next panel angled in and pushed back until it snaps into place.
- A narrow bead of silicone sealant must be applied to the shoulder of the 'tongue'
- Accuracy of pattern alignment between panels may vary depending on the scale of the pattern
- Hydro-lock panels are not available off the shelf – slightly longer lead times than standard panels apply
- Full fitting instructions should be read prior to installation.

multiPANEL accessories

multiPANEL seal

multiPANEL seal is a two part shower tray and bath sealing system comprising a PVC strip and a high performance white silicone. The 'movement joint' expands and contracts to offer a stylish and reliable bottom seal for **multiPANEL**.

- Flexible
- Durable
- Hygienic
- Attractive

PACK INCLUDES

2 strips (1.85m each)
2 sealant
2 end caps
1 mitre block
1 spatula & 3 wipes
full installation instructions

PANEL adhesive and sealant

Grant Westfield High Grab Panel Adhesive is suitable for use on **multiPANEL**, **tilePANEL, polyPANEL**, **cleanPANEL**, **ceilingPANEL** and most materials including non-porous surfaces. The high-grab, solvent free adhesive can also be used as a white silicone sealant.

Sealux-N Silicone sealant is also available to order from Grant Westfield in white or clear finishes.

CONTENTS

Grant Westfield High-Grab Panel Adhesive
290ml
Sealux-N Silicone Sealant
310ml

multiPANEL access

This all-in-one kit allows you to create quick and easy access to all your services.

Simply cut your **multiPANEL access**, using the card template on the inside of the packaging as a guide, or create your own shape. The flexible extrusion and concealed screw fixing seal the panel, but permit quick, simple access to any of your services.

PACK INCLUDES

1 metre length seal extrusion
1 metre length double sided tape
'panel lock' and screws
saw blade and cutting guide
full installation instructions
