Moon Dust

Cleans easier
Cleans cleaner

Bathrooms are notoriously hard to keep clean but Showerwall changes all that with its non-porous, wipe-clean, hygienic surface providing no hiding place for mould, dirt or germs. Unlike tiles which will collect and harbour dirt, especially in the grout, Showerwall can be simply wiped clean.

The hygienic, non-porous surface is resistant to bacteria and there are no seams or cracks where dirt or germs can lurk. So Showerwall doesn't just clean more easily, it cleans cleaner too. Use Showerwall's Anti-Bacterial Cleaner to keep panels looking and performing like new.

A clean-cut approach to installation

With Showerwall there's no more inconvenience and mess. You simply cut the Showerwall panels to size and fix them to the wall. And you won't need to be a qualified tradesman. In fact, anyone who's competent at DIY can do it.

Product Specifications

Showerwall panels are manufactured from moisture resistant MDF as standard and plywood on special request. Both are faced front and back in high pressure laminate.

Panel style	Height	Width	Thickness
Square cut	2440mm	900mm	10.5mm
	2440mm	1000mm	10.5mm
	2440mm	1200mm	10.5mm
Tongue & groove	2440mm	585mm	10.5mm
	2440mm	900mm	10.5mm*
	2440mm	1200mm	10.5mm*

*Special order only - 10 working days - no extra charge

| Core material	
Moisture resistant MDF	Standard order
Plywood	Special order (min 10 panels)

Pattern match is not guaranteed.

Each décor is designed to replicate natural material and therefore it is often not possible to achieve a repeat in the pattern between two panels. In particular the décors that replicate marble and stone will show a greater degree of unmatched pattern.
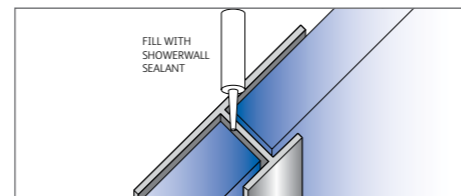

Showerwall Trims and Accessories

Trim colour options:

Bright Silver   Satin Silver   Black Silk   Antique Gold   Gloss White
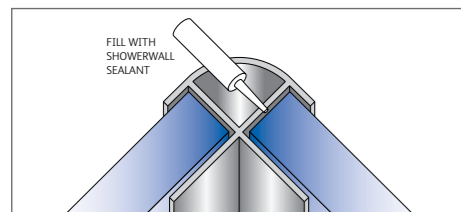

We recommend Showerwall's own brand of adhesive and sealants are used for the effective fitting of the product.
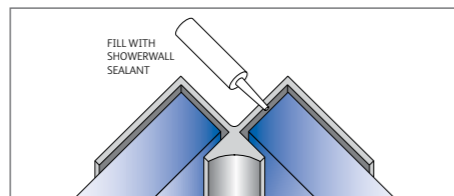

**Internal corner** 2450mm length. Used on all internal 90° corners. Seal with Showerwall sealant.

FILL WITH SHOWERWALL SEALANT

Joining and trim 2450mm length. Used to mount panels side by side. Seal with Showerwall sealant.

FILL WITH SHOWERWALL SEALANT

External corner 2450mm length. Used on all external 90° corners. Seal with Showerwall sealant.

FILL WITH SHOWERWALL SEALANT
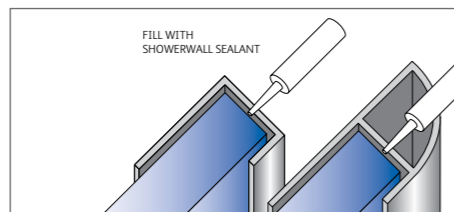

End trims and Quadrant trims 2450mm length. Finishing end trims for square cut edge panels. Seal with Showerwall sealant.

FILL WITH SHOWERWALL SEALANT
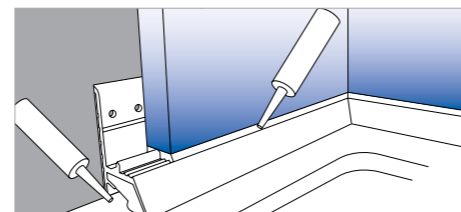

Shower Seal 1800mm length. Used as a flexible seal when installing Showerwall in a shower or above a bath.

Installation

Showerwall is simple and easy to fit, and full installation instructions are provided with every pack. We also highly recommend the installation DVD, which is also available at www.showerwall.co.uk along with downloadable installation instructions.

Failure to comply with the Showerwall installation instructions including the recommended use of Showerwall sealant and adhesive will invalidate your guarantee.

Make it easy with the Showerwall Installation Kit System
See page 32 for details

Guarantee

When installed correctly using the recommended fitting guide and accessories, Showerwall is guaranteed to be free from defects for 15 years from the date of purchase. A copy of the Showerwall guarantee is available to download from the Showerwall website.

15 YEARS GUARANTEE

Care and Maintenance

Showerwall is more hygienic and easier to maintain than tiles.

The non-porous surface provides excellent protection against bacteria, especially in the areas between tiles that are traditionally grouted. Anti-bacterial cleaner kills germs and keeps hard surfaces clean without scratching and is recommended for the optimum life and performance of the panel.

Abrasive cleaners and bleaches MUST NOT be used on Showerwall panelling.

Sealant needs to be replaced at regular intervals. Failure to do this may cause water ingress and subsequent panel damage.

Showerwall waterproof panelling system.

Any reference to Showerwall waterproof panelling system refers to all elements of the Showerwall system being fitted together. Showerwall panels must be fitted in accordance with the fitting instructions and MUST use Showerwall trims, sealant and adhesives to ensure the system is both waterproof and guaranteed.

British Standard Fire Rated Class 2
BS 476: Part 7 : 1997

Protecting the Environment

All Showerwall panels are manufactured using responsibly sourced certified MDF, guaranteeing that the wood used in its production is harvested from responsibly managed forests.
By buying a product with responsibly sourced certification, you are supporting responsible forest management worldwide.

We are fully committed to going beyond existing regulations, to minimise any impact on our environment, protect peoples health and safety, and make labour relations and social issues an integral part of everything we do.

Responsibly sourced

Packaging is made from 100% recycled material.
