White Wave	PVC	2700mm x 250mm	5mm	2.7m²
White Wood High Gloss	PVC	2700mm x 250mm	5mm	2.7m²

FIXING OPTIONS

BASIX PVC WATERPROOF PANELLING can be stapled, panel pinned, glued or screwed directly to a flat and even surface or on to timber battens if the surface is uneven. Fix battens approximately 30cms apart facing the opposite direction to the panels (horizontally where the panels are being installed vertically).

Nails, staples, screws or pins should be fixed through the panel groove base flaps so they are not visible when the tongue of the following panel is located into the groove of the previously installed panel. Where H joints are being fitted you may need to trim off the panel tongues, and/or groove base flaps first.
ACCESSORY GUIDE

1 END U CAP
To start or end the assembly of the panels.

2 EXTERNAL CORNER
To make an outside corner.

3 INTERNAL CORNER
To make an inside corner.

4 H JOINT AND DÉCOR STRIP
To make an H join or décor strip between 2 panels.

5 SCOTIA
To finish the corner between wall and ceiling or floor and wall.

5mm trims available in 2.7m lengths	Bright Silver	White	Black

CARE AND MAINTENANCE

BASIX PVC WATERPROOF PANELLING is more hygienic and easier to maintain than tiles. The non-porous surface provides excellent protection against bacteria and stains.

BASIX PVC anti-bacterial cleaner kills germs and keeps hard surfaces clean without scratching.

Abrasive cleaners and bleaches MUST NOT be used on BASIX PVC panelling.

◣ White and Chrome

INSTALLATION INSTRUCTIONS

A full set of installation instructions is available from your BASIX PVC WATERPROOF PANELLING supplier and are also included within the product packaging.

WARRANTY

BASIX PVC WATERPROOF PANELLING has a two year domestic use warranty against manufacturing defects. A copy of the warranty is available from your BASIX PVC supplier.

Installation of your BASIX PVC WATERPROOF PANELLING must be as per the instructions supplied, as incorrect installation will void the warranty.
