# sensory rooms

*For many years now, Total Sensory have been designing, creating and installing sensory rooms.*

Total Sensory take pride on giving excellent customer service- from start to finish, we listen to your ideas and aspirations for a new, or refurbished room. If you are unsure where to start, we can make suggestions of suitable products, and will endeavour to aim for your budget.

We have our own team of experienced installers who are also trained electricians, CRB checked and NICEIC approved. All staff hold current safety qualifications to ensure the protection of your service users, staff and members of the public. Above all, our team have a friendly and helpful approach, ensuring you are happy with our service and products.

What's the procedure for a sensory room enquiry? Initially, contact us via phone or email and we will have a chat about your requirements covering any budget you may have, your location, the age group and particular needs of the service users, and the overall size of the room in question. We can then put together a free, no obligation 3D drawing of your room with products pictured. This will give you a visual layout of the finished sensory room. An itemised quotation will accompany this drawing, and you can then review and ask for any amendments. If you decide to proceed, we will book in a suitable date with yourself and our installers, and begin production. Dependent on the size and nature of the room – whether there is custom made requirements, for example – lead times vary from 4-6 weeks, although during busy periods, such as school holidays, it is best to place the order to ensure we can install before the school re-opens.

Following successful installation & training, we can provide pricing for annual servicing- to keep your new sensory room in excellent condition.

*"We are very pleased to have chosen Total Sensory to provide our new Children's A&E and Fracture Clinic department with child safe and visually stimulating interactive entertainment systems to distract children during treatment and eases young patients hospital experience. The support and advice received from all the team at Total Sensory has been excellent throughout."*

**BASILDON HOSPITAL**

# sensory rooms

from design to completion

"Hi Vanessa and Total Sensory Team,  
Just to say a really big thank you to everyone for the installation of our sensory room equipment, it looks absolutely fantastic, can't wait for children to return and try it out. Everyone who has been down to visit our new room has been delighted and amazed at the effects we have managed to create, in what was formally a very boring and unsuitable space. Please also thank Hugh and his assistant for their excellent work, we were really impressed with their professional attitude and quality of work, as well as their very cheery dispositions! I hope, in time, we will be able to make some additions, and will not hesitate to contact your company again. No doubt other professionals will be visiting our school, observing our children using the equipment, and I shall be only too happy to recommend your company and installation team. Thanks once again."

# *maintenance* of sensory rooms

*We offer a range of maintenance options to suit your requirements, from one off call outs to regular servicing to maintain your equipment.*

Very often sensory spaces become unusable areas- electrical items may stop functioning, bulbs blow, padded floors and walls become unhygienic and bubble tubes get clogged and stop performing. When your sensory room is first installed, it's a good idea to ask us for a maintenance contract to prevent this often costly space becoming redundant. If, however, you already have a sensory room that requires a little attention, please contact us and we will provide pricing for your requirements.

All of our team are electrically qualified, have vast experience installing sensory & soft play rooms and are NICEIC Approved for your peace of mind.

For further details please go to [www.sensoryroom-maintenance.co.uk](http://www.sensoryroom-maintenance.co.uk)

# Wireless Switch System for Sensory Rooms

Total Sensory's wireless touch screen system for operating electrical equipment within sensory and soft play areas couldn't be simpler! The unique 25cm touch screen can be easily mounted onto the wall, usually at the entrance, to operate all lighting and electrical products wirelessly with the touch of a finger.

We can install the switching system into new or existing sensory rooms to improve control and usability- making it easy for everyone to operate the area, without on-going training or complicated PC switching systems! The unit also eliminates the need for untidy cables and provides instant stimulation, without the delay waiting for the operator to turn on the computer, load up the relevant software and eventually...turn on some equipment!

We recommend our full installation service, please enquire for pricing. The below bundles are supply only.

When installed, the unit is labelled with your product names - each with an on/off touch sensitive button. You can then control elements in the room individually, for example, you may have a service user that doesn't respond well to too much sensory stimulation and therefore only need the bubble tube on. Also all members of staff can operate this system without prior training.

**Bundle 1** - Wireless System with receivers for 5 electrical items  
£825.00 exc VAT (supply only)

**Bundle 2** - Wireless System with receivers for 10 electrical items  
£1650.00 exc VAT (supply only)

*NB - Further receivers can be added, please contact us for pricing and installation fees.*

# sensory packages

Please find below a number of different sensory packages offering you great value! Ideal for adding to or creating a sensory room.

The 'Sensory Corner' is ideal for where space is at a premium and perhaps the room in mind is multi-functional.

The 'Sensory Room' packages provide you with a small room's worth of equipment for a well rounded sensory environment.

## TODDLER SENSORY PACKAGE:

Encouraging learning with sensory & soft play sessions for little ones with this stimulating package.

### SPMF-01 Padded Mat

1 x Soft Play Plain Mat. 1.2 x 1.2m square, 35mm thick. Choose a colour from: black, yellow, grey, red, white, aqua, dark blue, ice blue, pale blue, orange, fuchsia, bright green, lilac, or sand.

### ED-ED Expression Dolls x 2

Choose two from: laughing louie, angry alice, fearful freddy, surprised sam, happy hannah, or sad sally.

### SWM-ATB Apple tree wall mat & basket

Ideal for group play and learning to take your turn! Simply throw a plastic ball (not provided) to try and get it into the apple tree basket. Pockets for the apple tree are good for playing games and storing different objects- try feeling the pocket to guess its contents.

### UVP-01 Draw n Glow Kit

Complete with magic pen, allows you to draw shapes in the air above the draw n glow board only to watch them fade, so you can create another drawing. Can also make contact with the board to trace the provided stencils or draw your own patterns. Use over and over again in the dark, and watch it fade in the light

### SS-1002 Sparkle Fibre Strands

Sparkle Fibre Optic Strands and colour change lightsource- includes 100 strands of fibre, each 2m long, sparkling and changing colour along its length. Very tactile and visually stimulating

### AWP-04 Pathfinder panel

Great for visual tracking and fine motor skills. Track the beads across the wooden board, following the path as you go. Measures 61 x 61cm

### SMF-MF Musical Footnotes

Set of 8 circular pads, each with a different musical note. Simply jump from one to another to play music. Comes with a sheet for group activities.

### AT-APD Aroma Play Dough kit

Complete kit with coloured, smelly dough- use the stencils and make a masterpiece.

### SRP-TP £1,450.00

Excluding delivery & VAT

## SENSORY STIMULATION FOR THE ELDERLY:

Ideal for care homes, or residential centres.

Products include stimulation for the sight, sound, tactile and smelling senses. Virtually maintenance free, colour changing fibres surround the fiesta tube in a mobile plinth for moving from a bedroom to a lounge area, for example.

This package also includes products to encourage movement in the hands- excellent for healthy bones - and products to encourage socialisation- such as the sensory smell games. Create your own sensory area with the colour changing fiesta tube and projector with 4 different wheels.

### FT-02 Fiesta Tube with Cushioned Plinth

On lockable casters. Colour changing rosettes of fibres arranged on all sides of the tube. Includes cushioned base at 40cm height providing ideal seating position. Lockable casters enable transportation from room to room.

### SA-TPY Theraputty

Set of 6 therapeutic putty's varying in density- some super soft, some hard.

### SA-SSG Choice of Sensory Smell Game

Choose from pick the fruit or pick the flowers sensory smell game

### TP-TCH Tactile Cushion

Your choice of tactile cushion- from 'fun at the fairground' or 'doty tea party,' contains various tactile material like artificial grass, ribbons, bows, satin and lace.

### SMG-01 Sensory Musical Gloves

Simply put on, and each fingertip has a sensor for a musical note - press down onto any surface, or hold hands with someone wearing the gloves to play music. Various instrument choices including piano and xylophone. Great for arthritis sufferers, to encourage exercise of the fingers.

### PJ-LED07 Reminiscence Projector Pack

Includes LED projector, rotator and 4x wheels. Simple to change effects and to add discs in the future, from our vast catalogue. Included in this pack are vintage products wheel, 1950's film star card wheel, 1936-1945 wheel and 1930-40's wheel. If you would like to substitute a wheel for a different one, no problem, have a look at our range and please let us know.

### SRP-EP Total: £1,735.00

Excluding delivery & VAT

# sensory on the go!

## Total Sensory - on the Go!

We have developed a complete mobile sensory experience to enable you to share a calming sensory corner with various user(s). Ideal for those who have limited space and budget for a full sensory room but still want to provide a sensory area. Ideal for care homes to accommodate easy movement of the unit from lounge areas to individual rooms when needed.

1.2m long x 1.2m high, with high density vinyl covered foam padding throughout, providing a wipe clean and comfortable seating area with back cushion for support. The unit comes with lockable casters, 2 x acrylic mirrors, 1m long colour changing bubble tube, 2m long sparkling fibre optic strands.

Optional extras include: Vibrating back pad to replace plain padded panel, ideal for extra stimulation, and a vinyl cover for the unit, ideal for storage. Vinyl available in various colour choices (fuschia pictured here).

# sensory bus

*Complete Mobile Sensory Experience heading to a bus stop near you!*

The Sensory Bus is approx. 1.2m long by 90cm high. Although you cannot actually get inside the bus, there are sensory features packed on every side!

On one side there are activities, on the other there are visual- colour changing- effects, on the back is the music station and the front is the personal exploration section with acrylic mirrors and a magnetic board for placing your name. The Wheels also offer tactile stimulation, each one offering a different surface to explore.

The back is also equipped with a lockable cabinet to store other sensory items, such as aroma balls, that you may want the bus to travel with. There is also a spare electrical socket on the bus that will enable you to plug in a projector to sit on the top, or some sparkle fibre strands and fibre optic carpet (available separately)

Size approx: 1.2m long x 90cm high

Sensory Bus Complete Unit  
**SBU-01** £3695.00 exc VAT

## Optional Extras:

Cover for Storage

Keep your bus in tip top condition with this vinyl, wipe clean, durable cover to place over the entire unit.

**SB-CV** £185.00 exc VAT

Stop Here! Bus Sign

As an additional option, you can also purchase a 'Stop here' bus sign. This is equipped with a sensor that detects movement, to announce the arrival of the Sensory Bus! You can record your own messages into the sensor, so you can provide the name of the person the bus is going to etc.

**SB-VP** £295.00 exc VAT

Fibre Package

Add a 1.2 x 1.2m Fibre Optic Carpet and 2m long Sparkle Fibre Optic Strands to your bus. Both products are provided with a twin port lightsource so you can plug both in at the same time using the accessory socket on the bus. Ideal to lay in front of the bus. Carpet can be easily rolled up for storage.

**SB-FP** £499.00 exc VAT

- 1.75m long, 150mm diameter  
Colour Changing  
**PBB-02** £775.00

# bubble tubes

*Bubble Tubes are one of the most memorable items in a sensory room and often become the focal point.*

We provide a range of **calm colour changing** and **switch controlled** bubble tubes. The calm colour changing range continually fades through a series of calming colours whereas the switch controlled tubes allow the user control via a wireless switch box. Using the illuminated switches you can select red, green, blue, or yellow and the tube changes to the corresponding colour. You can also turn the bubbles on and off with the central button on the control box. The switch box is rechargeable, so no need to replace batteries. If no button is pressed for a pre-set period the tube returns to passive mode; slowly changing through the colours by itself.

The ball/bead bubble tubes have an insert in the centre of the tube that carries coloured balls and beads through the centre. Users can watch them float back down and spring up-encouraging tracking skills and focusing attention.

Wall brackets, Water Siphons and BCB fluid can also be purchased. The fluid prevents bacterial growth in the tube and wall brackets are recommended for all tubes. The water siphon allows for easy drainage of the water to clean and refill.

A range of padded platforms are available for use with our bubble tubes, please see pages 17 and 18.

**Switch Controlled  
Bubble Tube**

- 1m long, 150mm diameter  
Wireless Switch Box  
**BT-03** £860.00

## Sound Activated Bubble Tube

A clever little bubble tube that responds to loud sounds, while ignoring background noise. Clap, shout, stamp or tap the side of the tube to see the tube change colour.

Ideal to encourage movement for cause and effect or for those who are fidgety and would prefer sound activated products rather than switch activated.

1.5m long, 150mm diameter  
Colour Changing

# *bubble tube* accessories

## Wall Bracket

Recommended for all tubes.

**BT-WB** £48.00

## BCB Anti-Bacterial Growth Fluid

Anti-Bacterial Fluid is recommended to keep bacterial growths at bay.

**BT-FL** £27.00

## Water Siphon

Used to aid emptying the bubble tube, which should be changed every 4-6 weeks to keep it clear.

**BT-WS** £55.00

## Acrylic Mirror (two ideal for use with BT-CP)

Often used to place behind a bubble tube to give the impression there are more than one! 175 x 60cm

**BT-AM** £120.00/each

## Acrylic Mirror for Low Level Bases

175 x 120cm

**BT-LAM** £140.00/each

*Shake up  
the way you use switches!*

## Set of 5 Carpet Switches

With any interactive switch controlled version, you can choose to 'add on' a set of 5 pressure activated carpet switches- these plug into the wireless box and over-ride the push buttons. Simply jump on the colour co-ordinated carpets to change the tube to that colour!

**BT-CS** £375.00

*sensory rooms  
with custom made padded units*

**Pictured right, from left to right, jellyfish fountain, bubble tube, fiesta tube with acrylic mirrors behind the unit. In foreground, UV sparkle 'n' glow fibres.**

# bubble tube

## low level padded bases

Bubble tubes look great when used with a low level cushioned base. This allows children to get up close to the tube in a comfortable environment and also allows adults to sit on the base as we ensure the use of high density foam- that will not 'crush' when you sit on it. The bases can be flipped over so you can display different colours - fuchsia or white, and blue or white. Various shapes are available - to suit corners or smaller spaces.

**Bubble Tube in Low Level Cushioned Plinth**  
100x100cm

**Corner Low Level Cushioned Base with acrylic mirrors behind**

**Square Low Level Cushioned Base 100 x 100cm**

Manufactured with high density foam, this square base provides a low level seating area and allows easy access to hug and get close to the tube. Colours: Fuchsia/white or blue/white.  
**BT-LLCP-A** £275.00

**Corner Low Level Cushioned Base 120 x 120cm**

Semi-Circular Corner padded base. Excellent with acrylic mirrors behind. Colours: Fuchsia/white or blue/white.  
**BT-LLCP-B** £375.00

**Twin Low Level Cushioned Base**

Combine two different bubble tubes in one base! 120 x 100cm  
**BT-LLCP-C** £475.00

# rainbow tube

*The sound activated rainbow tube, responds to clapping, music or any external noise.*

Comes with microphone- simply blow into this to make the rungs of light jump! Complete with padded base as above. Approx 1m high tube. Excellent for cause and effect, and to encourage vocalisation.

**RT-01** £1499.00

*Add a coloured lid for £45.00 extra*

# bubble panels

*Compact yet visually stunning, the Bubble Panel is ideal for sensory rooms where space is limited.*

Perfect for visual and auditory stimulation, due to the bright, calm colours and enhanced 'bubbling' sound. They require much less water than the conventional cylinder bubble tubes and they create bubbles with interesting shapes and detail due to the confined space in which the water is kept. Available in 1m and 1.5m height, the width is 36cm. The Bubble Panel comes with 2 wall brackets to enable an easy install.

Interactive Bubble Panels come with a wireless switch box. A set of 5 pressure activated carpet switches can be purchased separately, adding a new and exclusive element of switching!

Ideal for those who are unable to focus on smaller switches, the carpet switches are ideal - jump from one to another, sit on them or press with your hands to change the panel to the corresponding colour.

**1m Passive Bubble Panel**

# fiesta tubes

This unique product is designed and manufactured by Total Sensory, the 'Fiesta Tube' fulfills the demand for a water-less version of the traditional Bubble Tube. With minimal maintenance the Fiesta Tube is ideal in situations where ongoing maintenance is an issue.

1.5 metres in height with approx 2,000 sparkling points of light, the tube can be viewed from all angles, its slow colour change creating a relaxing environment for sensory rooms and care homes. Proving particularly popular is our Mobile Unit which aids manoeuvrability between wards and rooms as it glides on its lockable castors.

# jellyfish fountains

The Jellyfish Fountain incorporates dozens of sparkling, colour changing fibres, sprawling out of clear plastic tubing mimicking the effect of jellyfish tentacles!

Sit around the cushioned plinth and play with the glowing fibres, draping them over yourself and watching the slow, shifting colours sparkle and blend.

We offer both a Sparkle Fibre Fountain and a UV Fibre Fountain, both with a ---light source. The UV fibre version can be coupled with the supplied light source for a colourful sparkle effect, and separately coupled with a UV spotlight for a different glowing effect.

£369.00

### LTS-01

50W Halogen Light Source  
with Colour Change Wheel  
£165.00

One of the most popular items, the sparkle fibre optic strands are suitable as an addition to a sensory room or to play with at home, draped over our giant bean bags. The item is produced with the brightest polymer fibre, heat sealed at the ends in our factory.

The fibre is safe to handle and play with; the fibres do not get hot. Powered by a 50W colour change halogen lightsource, there are no sudden colour changes - instead the fibre slowly sparkles through its colour changes. You will require a light source to power the fibres.

Manufactured in the UK, custom lengths/number of strands can be quoted for upon request.

## maxi fibre harness

This new addition to our range of flexible polymer fibre is 14mm diameter and 2.5m long. It's excellent for tracking skills and for those with visual impairment as the end emits a spot of light you can follow on the wall! Comes complete with our super 50W colour change lightsource.

**MRF-01** £295.00

*the brightest we have produced yet!*

# *jelly fibre* **strands**

*The jelly fibre strands are the brightest we have produced yet!*

This 3mm Solid Side Light Fibre is very flexible and safe to handle, it's made from polymer fibre which doesn't conduct heat or electricity. Powered by a 50W colour change halogen lightsource. Manufactured in the UK - custom lengths/number of strands can be quoted for upon request.

# uv sparkle 'n' glow

## fibre strands

UltraViolet (UV) Sparkle Fibre Strands offer stunning effects when combined with a UV spotlight. Total Sensory provide harnesses with mixed colours including red, green, yellow, orange, blue, pink and purple - a rainbow of glowing colours that sparkle and glow furiously under UV exposure.

For the liveliest results we recommend coupling the fibre with both a 50W twinkle lightsource and UV spotlight. However, fibre can be purchased alone to be used under UV, or with your own lightsource (just let us know the common end size). Produced in the UK by us to a factory finished standard - the ends are heat sealed and the PVC sheathing is phthalates free.

**Please note** that our product includes **3 strands of glowing fibre in each** sheathing, creating an impressive effect. Be aware that harnesses with only 1 strand of glowing fibre per metre will not provide as bright an effect - so check how many strands of fibre are included before purchasing elsewhere!

### UV Fibre Strands

Colours include Red, Green, Yellow, Orange, Blue, Pink, Purple

**UV-1001** 100 strands each 1m length  
£189.00

### UV Spotlight

168 UV LEDs with moveable mounting bracket for creating the super glowing effect!

**UV-BL-01** £112.00

# fibre optic cascades, showers & curtains

Designed and manufactured by Total Sensory, fibre optic cascades, showers and curtains use safe polymer fibre in both sparkle and UV versions. We often use the fibre optic curtain version behind beds or along walls and the fibre optic shower and cascade would both make lovely creative lighting for sensory rooms adding an element of sparkle and colour.

## Fibre Optic Cascade

1.5m of hanging sparkle fibre housed in an attractive brushed stainless steel box that can be fitted flush to the ceiling. Powered by a halogen lightsource.

**FOC-01** £599.00

## Fibre Optic Curtain

1m wide horizontal strip enclosing hanging sparkling fibre optics, ideal for mounting onto a wall or behind a bed. Powered by a halogen lightsource.

**FOC-02** £625.00

## UV Fibre Optic Curtain - Sparkle 'n' Glow Ultraviolet Fibre

1m long horizontal strip enclosing hanging sparkle n glow UV fibre optics, ideal for mounting onto a wall or behind a bed. Powered by a halogen lightsource, for the 'sparkle' effect. Add a UV spotlight for the 'glow' effect.

**FOC-03** £757.00

## Fibre Optic Shower

1.8m long fibres, arranged in a large square formation. Stand in the middle and you'll be showered with light! 60 x 60cm mirrored top.

**FOC-04** £799.00

Fibre Optic  
Curtain

Fibre Optic  
Shower

Custom cascades, showers and curtains can be quoted for, please let us know the drop required and the number of strands.

# fibre optic carpet and rugs

The effects create a night sky on your floor! The polymer fibres are invisible to the naked eye until the lightsource is activated to reveal hundreds of sparkling points of light. All carpets are handmade in our factory in Doncaster, the fibres are sewn by hand into random patterns on a deep black or blue soft carpet. The carpet is tapered around the edges to create a lovely finish. The fibre optic carpet is safe to walk on and to touch the fibres; they contain no heat or electricity. They won't break under impact as we use polymer, not glass fibres. The carpet can be vacuumed as normal carpet.

## Fibre Optic Carpet

Ideal as an alternative to floor padding as we can produce the carpet to fit any sized room. We normally embed about 1 or 2 metres square of the carpet with fibres, normally in the centre, although we can place these wherever you have preference.

## Fibre Optic Rugs

Embedded with fibres throughout the whole carpet, 1m x 1m or 2m x 1m. We believe in giving you the best product, and as we produce these rugs & carpets in our own factory in the UK we meet very strict criteria as to how many fibres are in each rug. Please be aware that alternative versions not produced by us may not have as many fibres and therefore not be as effective. Manufactured in the UK – custom Fibre Optic Carpets and Rugs can be quoted for upon request.

### Fibre Optic Rug - SC-1

1 x 1 metre square  
1 metre tail to lightsource  
50W colour change lightsource

**IC-1** £625.00

Interactive  
Cause  
and Effect

# star ceiling

*A mirage of Stars Twinkling in the Ceiling; a very popular calming effect for childrens bedrooms nurseries and care homes.*

Some simple installation required; access from above is required, if for example, you purchase 250 strands of fibre, the same amount of 1mm diameter holes will need to be drilled into the ceiling using the 1mm drill bits supplied. The fibres are then pushed through from above and sealed with a dab of silicone. The high quality fibres are powered by a 50W halogen lightsource. Two LED kits are also available.

Manufactured in the UK - custom starry ceiling kits to fit a particular area can be quoted for upon request as can installation by our experienced team.

## **Star Ceiling Kit**

120 strands mixed diameter 0.75-1.0mm  
Lengths 2.25, 2.5, 2.75, 3.0m  
50W lightsource with twinkle wheel  
2x1mm drill bits  
**SC-120** £298.00

## **Star Ceiling Kit**

50 at 1.5, 2.0 and 2.5m  
LED colour change lightsource. Free Drill Bits  
**SC-LED2** £265.00

# fibre optic star cloths

Star Cloths are black heavy duty fabric embedded with random glowing fibre points.

The fibres can be either colour change, static or white twinkle effect. They are often used as an alternative to blackout blinds or to partition off a room.

Our standard Star Cloth uses 1.5mm fibres, approx 13 points of light per metre. Custom quotations are available, creating more sparse or dense fibre optic cloths.

Complete with velcro hoops at the top for ease of pole hanging.

Black Star Cloth 2m wide x 1m drop with velcro hoops on the top edge for pole hanging. Complete with 50W halogen lightsource.  
**TS-FOC-01** £658.00

# ceiling panel

## Fiesta Ceiling Panel

Ideal for false ceilings; this panel will replace one of your existing 60 x 60 ceiling panels with a colour changing calming effect. Ideal for the NHS to provide a patient with a calming point of focus while treatment is occurring. Also ideal for positioning above a bed to create some interest while resting.

Includes wireless control for operation

**FCP-01** £499.00 exc VAT

# UV products

UV lighting provides a dramatic, stunning effect in a dark environment.

Please also see our Play 'n' Go UV Case on page 11

**UV Line Lite Mirrored Wall Panel 60 x 60cm**  
Highly tactile, this mirrored wall panel is threaded with line lite tubing which glows with bright fluorescent colours when illuminated under UV light.

**Fluorescent Roller Shaker**  
Shake the fluorescent beads and watch them glow under UV light. 24cm length.  
**UVP-06** £19.99

# sensory aromatherapy

*Aroma Diffusers have been used for many years as an important part of a sensory room.*

The Aroma Diffuser Kits come with vapourising oil in various fragrances. Ideal for use in sensory rooms to evoke different memories.

## aroma diffuser

**Aroma Diffuser with vapourising oil**  
Fragrance choices: Apple, Coconut, Mango, Pineapple, Strawberry, Lavender, Fressia, Rose, Ylang Ylang, Clean Sheets, White Musk, Seabreeze, Coffee, Swedish Pine & Vanilla.

(10ml) AT-01 £37.99  
(25ml) AT-02 £39.99

# sensory smell games

### Pick the Flowers Sensory Smell Game

A fun smelling game with 8 pleasant fragrances and 8 picture cards to guess the smell. Up to 6 players. Aim of the game is to add a drop of each of the fragrance oils to the provided cotton wool pot. Guess the smell and match to the enclosed flower cards. For each correct match, the participant gets a token. There is also a true/false quiz on the back of each flower card, which is recommended to do to clear the smell senses before guessing another! Fragrances include Golden Daffodil Vanilla, Honeysuckle, Lavender, Rose, Sunflower, Bluebell and Peppermint.

SA-SSGFW £48.00

### Pick the Fruit Sensory Smell Game

A fun smelling game with 8 fruit fragrances and 8 fruit picture cards to guess the fruit. Up to 6 players. Aim of the game is to add a drop of each of the fragrance oils to the provided cotton wool pot. Guess the smell and match to the enclosed fruit cards. For each correct match, the participant gets a token. There is also a true/false quiz on the back of each fruit card, which is recommended to do to clear the smell senses before guessing another! Fragrances include apple, strawberry, orange, mango, blackberry, grapefruit & Kiwi, banana and lemon & lime.

SA-SSGFT £48.00

### Scented Bag Making Kit

Make 20 different scented bags (can be used in the keepsake cushions see page 61) with enclosed potpourri, decorate with provided craft pieces including gems, feathers, ribbons, stars, hearts, flowers, butterflies, sequins and many more. Great to give as gifts to family or friends.

SA-SSGBM £38.00

# squeeze me aroma balls

The 'adult' version of the aroma play doughs- the squeeze me aroma balls may help to relieve the increasing levels of stress that modern life can bring. Choice of 'Stress Release' with lavender and bergamot or 'Energising' with grapefruit and geranium

Choice of Stress Release or Energising  
**AT-04** £9.99

# set of 6 theraputty

Theraputty is the standard in resistive hand exercise material. Each colour coded putty has a different consistency ranging from xx-soft for strengthening the weakest grasp, to extra firm for developing a stronger grip. Available in easy to open plastic containers, ideal for use at home, for those who fidget, need to develop fine motor skills, or those with arthritis and need to strengthen their fingers.

Set of 6 colours from very soft to firm includes:  
Tan / Yellow / Red / Green / Blue / Black  
Each tub contains 2oz

**SA-TPY** £39.99

# aroma play dough kit

**Sneezy dough** is grass green and contains eucalyptus and tea tree oil to help with wheezes and sneezes

Age 3+

**AT-05** £24.99

# portable sensory boxes

*Portable Sensory Boxes are designed for durable usage as they can be carried from room to room or loaned out in a 'Sensory Library.'*

They are also particularly useful for sensory rooms where you need flexibility to adapt the room for multiple uses or for particular needs. All boxes measure 60 x 60cm and come with a carry handle, protective corners and integral light source. If needed, the boxes can be secured back to the wall. The interactive versions come with wireless switch box for colour selection. The carpet switches can be added to either the sparkle curtain, fiesta or infinity interactive versions, creating a pressure activated element of switching!

## portable sparkle curtain box

Rows of sparkling, colour changing fibre set above a tough perspex mirror so you can see your own reflection while you play with the fibres. The ends of the fibre are heat sealed and they do not emit any heat or electricity.

**Passive Portable Sparkle Curtain Box**  
**CB-01** £599.00

**Interactive Portable Sparkle Curtain Box with Wireless Switch Box**  
**CBI-01** £975.00

## portable infinity box

Created by our design team, the Infinity Box is produced with fibre optics and the clever use of mirrors to create a floating never-ending stream of fibre flowers, and these are surrounded by an infinite amount of colour changing fibres. The interactive version allows you to select different colours via the wireless switch box and also means you have the option to add the pressure activated carpet switches.

**Passive Portable Infinity Box**  
**IB-01** £599.00

**Interactive Portable Infinity Box with Wireless Switch Box**  
**IBI-01** £975.00

## portable bullseye box

The fibre is arranged in a bullseye pattern and emits the brightest, calming colour change effect. The vivid colours merge into one another, blending as they go, creating a beautiful rainbow colour effect as the wheel rotates. The pattern is safe to touch, as the polymer fibres are not sharp and do not emit any heat or electricity, making the product ideal for small children and nursery play areas.

**BB-01** £449.00

## portable fiesta box

Ideal for visual stimulation and relaxation, the fiesta box is handmade in our factory with hundreds of calming colour changing fibres. Watch the fibre flowers blend and merge through the various colours of the spectrum.

**Passive Portable Fiesta Box**  
**FB-01** £599.00

**Interactive Portable Fiesta Box with Wireless Switch Box**  
**FBI-01** £975.00

### Set of 5 Carpet Switches

Large pressure activated switches that plug into the interactive wireless switch box, can be used with the Fiesta, Infinity or Sparkle Curtain Box. Colour co-ordinated and soft to the touch; simply jump on or press with your hands to change to the corresponding colour!

Brand new and exclusive to Total Sensory, shake up the way you use switches.

**BT-CS** £375.00

## Touch Activated Sensory Effects

Infinity and Fiesta boxes have been a popular item for years, offering bright and stimulating slow colour change, in a portable 60 x 60cm box with carry handle.

After taking on board customer ideas, we have developed interactive touch activated versions. They offer cause and effect colour change every time the front panel is touched.

**Infinity Touch-Me Panel**  
**TAB-IB** £840.00

**Fiesta Touch-Me Panel**  
**TAB-FB** £840.00

Infinity Touch-Me Panel

Fiesta Touch-Me Panel

# LED projectors

## sensory packages

We are pleased to introduce our range of LED projector kits. With a light output of over 650 lumens from a 40W LED module, the Solar LED projector is an ideal piece of kit for sensory rooms, creating interest, colour and movement in any sized room. They can be used in bedrooms, even with some background lighting.

Benefits of LED projectors include their almost silent operation, cool running, and a high colour temperature for truer colour projection and image clarity. The life of the LED module is approx 100,000 hours+ no bulb changes!

We have put together several LED projector packages, from starter packages with one wheel to bundles with four wheels. If you wish to pick different 6" or 9" wheels, further options are on page 36-37.

### Starter LED Projector Package

LED Projector

# magical interactive floors

The Magical Interactive Floor System is a multitude of multi-sensory experiences, using sound, movement and touch to create cause and stunning effects.

Total Sensory's interactive floor system has been custom made to aid teachers and carers in sensory sessions and to aid physical development. For children, its a colourful, magical environment that they can change with every touch.

The easy to use system comes complete with 14 programmes to suit all ability levels from touching with your hands to kicking with your feet; these simple cause and effect programmes enable the user to break ice, sweep leaves and feathers away or ripple over a fish pond! More advanced options include taking part in a short car race - manoeuvring the car to avoid hitting blocks and oil slicks and collecting points along the way! The shopping trolley programme teaches children to eat healthily by catching falling food items in your trolley...but only the healthy ones! Boys will love the indoor interactive football game- ideal for two players, you can shoot and score without breaking any furniture!

You can simply use the keyboard to go into each game and escape when you want to switch to another or we can programme each environment with a start and end time so that you can have 10 minutes of one game and then begin the next automatically.

## environments:

**Pond Effect, Crackling Ice, Autumn Leaves, Football Game, Fireworks, Balloon Party, Shopping Cart, Country Meadow, Mushroom Field, Butterfly, Race, Feathers, Coral Reef, Space.**

Environments subject to change.

**Example Scene 2:**  
**Country Meadow:** Long grass blowing in the wind with butterflies and the sound of nature in the background. Run along the grass and it bellows with the imaginary wind.

**Example Scene 3:**  
**Ice:** The ice cracks and splits as you walk along it or touch it with your hands. Sound effects make it feel even more real!

**Magical Interactive Floor System (Fixed Ceiling) - Supply only**  
Includes PC software with 14 programmes, Camera, Ceiling Bracket, Projection Matting and Projector with 4,500 lumens all housed in a compact unit.  
**MII-01** £7,495.00

**Installation & Training**  
please contact us  
**MII-02**

**Example Scene 1: Pond Effect:**  
Complete with water sound effects this program has various fish swimming among rocks while children can stand, jump or touch the pond's water creating ripple effects even with the slightest touch. Ideas for customising this scene include changing the number of fish, the speed of fish swimming and the size of the fish.

**WATCH A VIDEO**  
online at  
[www.totalsensory.co.uk](http://www.totalsensory.co.uk)

**Example Scene 4: Race:** Manoeuvre your car to avoid oil spills and road blocks and pick up the petrol points as you go!

**Example Scene 5: Space:** Stop the rockets from crashing into the planet by treading on them before they hit!

**Example Scene 6: Fireworks:** A beautiful night scene with small twinkling stars - tread on the stars to watch them turn into fireworks and explode in the sky!

**Example Scene 7: Autumn Leaves:** A beautiful autumn scene appears and as you sweep your hands over the tree, leaves gently rustle down to the floor.

**Complete with a 12 month warranty.**

# magic touch interactive units

Total Sensory's Magic Touch Interactive Units go one step further than the traditional interactive whiteboards.

You will be amazed by the software - interactive touch technology enables a group of people to gather round and draw a picture, play air hockey, drums or a keyboard together. Take part in games such as Frog, where you each have a frog and jump from lilly pad to lilly pad trying to eat the flies with your tounge as you go! Tilt the screen and watch HD DVDs together or surf the net. Teachers can connect iPads to the unit for lessons and to test pupils with interactive quizzes through Wordwall software.

Highly durable unit with 5mm toughened glass and a steel bezel, it is made for heavy duty usage giving you peace of mind. It is built to withstand heavy usage while offering a mobile design.

Multi Magic Touch offers a 32 point touch technology- enabling groups of people to interact with the product at the same time! Multi Touch offers three modes of operation- a whiteboard, an easel and a table enabling you to easily adapt the unit to suit what's best for the user(s).

Demos available free of charge- please contact us.

## MTI-MM Multi Magictouch 42" + 55"

The Future of Interactivity- an inbuilt PC, multi touch screen, electronic mobile stand, offering three products at once- a interactive easel, table or whiteboard. Height and tilt adjustable- simply plug and play!

- Inbuilt PC with wireless keyboard and mouse
- Touch Screen enabled LCD screen
- Designed for 24/7 usage
- 5mm Safety Glass
- Steel Bezel for added durability
- Built in speakers and amplifier
- Full HD 1080p resolution

# sensory waterbeds

*Total Sensory offer Sensory Waterbeds with the option of add ons including an 8 unit massage system or a sound kit.*

In a sensory room, waterbeds are a place in which you can relax and observe other projections and stimuli in the room. Very often we will place a fibre optic curtain behind the bed to interact with.

Initial set up should be done by one of our qualified fitters, leaving you to enjoy the benefits of the sensory waterbed.

The massage system offers timed stimulation of various intensities across the whole body, or you can select areas that require attention- shoulders and upper back, lower back, upper legs or lower legs and feet.

The sound kit operates after connecting your CD/DVD player, or some other audio source, vibrations will then automatically activate. With just two controls, you can adjust the bed's sound reproduction as needed. When you switch off your audio source, the sound waterbed will also disable after a couple of minutes. The water core is made of phthalate free vinyl and certified in line with Oko-Tex Standard 100.

Optional extras:

#### **Massage System**

Encapsulated in water-proof vinyl, this massage system has 8 massage units. You can easily set the desired massage level, area and type using the remote control provided.

**WB-MS** £643.00

#### **Sound Kit**

Integrated into the bottom plate, the sound kit includes a high end vibrator and rubber membrane, and an amplifier placed on the side of the base.

**WB-SK** £939.00

#### **Installation**

We highly recommend installation by our qualified team due to the water & electrics combination involved. Attempting to put the bed together yourself is at your own risk and is not recommended.

# vibrations and massage

## beanbag with musical vibrations

*Musical vibrations produce effective stimulation and relaxation, especially within the care of the blind, deaf, autistic, paralysed or hyperactive people or people with mental illness.*

The vibrations in these bean bags generate a gentle massage effect, stimulate senses and make it easier to relax. It is a delightful sensation for music lovers as well as people lacking body perception or with impaired sensory function. Vibrational plate and amplifier is included – you will require a hi-fi (or music source) and speakers.

### **Susie Stable Seating n Vibrating Bean Bag**

The Susie is a stable and comfortable bean bag with safe and cosy seating. Its design is suitable for people who slide down from ordinary bean bags. Susie keeps its form and shape, and is therefore very suitable for people with unintentional and spastic movements without being fastened in. Susie has a flame resistant PVC coated fabric which breathes and is washable. Filled with polystyrene balls and includes amplifier. Available in blue, red, green and white  
**VP-SB** £1399.00

### **Alfie Adaptable n Vibrating Bean Bag**

The Alfie is just as comfortable and cosy as it looks! It adapts to the body and gives the head, neck and arms a relaxing support. It provides better support for adults or children with poor sitting balance. Alfie has a flame resistant PVC coated fabric which breathes and is washable. Filled with polystyrene balls and includes amplifier. Available in blue, red, green and white.  
**VP-AB** £1499.00

### Two Way Neck and Back Massager

16 programmes to massage the neck and back using a variation of pulse, tapping, rolling, kneading and wave massage techniques. It has four levels of intensity and a 15 minute timer, with built in electroic controller with digital display. Can be easily converted via a zipper to fit over the back, round the waist, on the neck, or houlders. Hand straps are ideal to adjust the pressure and bring the product in close contact with the body.

**VP-NB** £65.00

### Sensory Vibration Wall Pad

60 x 60cm padded mat with inbuilt pressure activated vibration. Ideal for incorporating into padded walls for a hidden element of surprise! Can also be used as a stand alone product; to sit on, or lean against.

Battery operated.  
**VP-VM** £195.00

### Infrared Massage Hair Brush

Uses infrared light and heat together with vibration massage to invigorate the scalp as you brush your hair. Uses 2 x AAA batteries. Infrared light increases blood circulation to promote healthy hair. Measures 24.5 x 4.3 x 4cm. Ideal for care homes and the elderly.

**VP-HB** £25.00

### Wireless Massage Cushion

Gentle massage with automatic start as you relax into the cushion. Wireless battery operation.

**VP-MC** £54.00

# vibrating toys

## Vibrating Toys

Vibrating frog and monkey massagers. Also has a hot and cold gel pack insert for heating and cooling.

- Cute and cuddly
- Soothing vibration input when switched on
- On/off button on monkeys hand
- Great calming input
- Also has hot and cold gel pack insert for heating/cooling

## Vibrating Frog

SP-VFT £24.99

## Vibrating Monkey

SP-VMT £24.99

## Tactile n Vibrating Snake

This tactile and vibrating snake has 6 different sections with a different texture to explore, with a pull string vibrator. No batteries needed.

Various tactile simulation including;

- Foam filled head
- Beads of various weights throughout the body
- Pull cord Vibration
- Squeaker in his head

Encourages touch and manipulation, giving hands and fingers a workout.

SVP-VS £39.99

## Vibrating Love Bug

Provides a therapeutic vibrotactile experience- the love bug is a plush, soft beanbag with 3 foam vibration pods that can be placed anywhere inside the ladybug.

Pressure activates the vibration. Ideal for sensory impairment, positioning and relaxation. Measures 46 x 10cm, requires 2 x D batteries.

SVP-LB £125.00

# sound eggs

## Sound Eggs

Six coloured sound eggs that help children discover the rhythm of the first beat. Strong, lightweight and ergonomic, these percussion instruments are used by children and adults. Made from plastic. Height: 5.5cm - 4cm diameter.

Pack Includes:

- 2 x Yellow - High Note,
- 2 x Blue - Mid Note,
- 2 x Red - Low Note

Ages 3+

SE-01 £12.99

# MUSIC & interactive sound

## sound to light

*Our range of sound-to-light products are designed to encourage vocalisation and communication.*

Ideal for speech language therapists, they aid cause and effect learning by providing a light reward for speech. Rainbow lights provide a multi-coloured rung of lights that respond to clapping or any noises.

### Interactive Rainbow Lights

Standing at over 1 metre tall, the rainbow lights have 15 brightly coloured rungs. Highly sensitive to sound, the lights respond to speech, clapping & music. Comes with a microphone for control of the lights- simply breathing into this creates a reaction from the lights. Easy to set up- simply plug and play.

**IRL-01** £1,239.00

## musical touch

### Sensory Musical Gloves

Simply put on the gloves and press your fingertips down onto any surface to play your own musical creation! Each fingertip represents a different musical note, and there are 8 built in instruments to choose from; piano, bass, violin, trumpet, xylophone, music box, guitar and drum.

Background rhythms can be added for when you really get going! Volume and tempo controls are on the control unit. The unit can also be clipped onto your belt for making music on the move! Powered by 4 'AAA' batteries, included.

**TSR-FP** £99.99

### Percussion Tubes

Hollow tubes that will make a sound when used to hit an object or part of the body. Made from plastic. These tubes are ideal for group work as they develop children's psychomotor skills and expose them to the high and low sounds. They are simple to use and produce perfectly tuned notes with easily distinguishable pitches.

Pack includes:  
5 x Chromatic Tubes  
8 x Diatonic Tubes  
The largest tube is 59.5cm long.  
**ASP-PT** £49.99

# MUSIC & interactive sound

## musical stool

A snare sound and a bass sound resonate depending on where you put your hand on the stool. It offers children a fun first approach to music. Studies show that the use of drums help develop concentration, coordination, creative intelligence and social behaviour. After only a few minutes, a child is able to play different rhythms.

H 38cm - W 26cm - D 26cm  
Weight 2.9kg.  
Made from wood.  
Comes assembled.

**MST-01** £95.00 each

**MST-01W** White  
**MST-01B** Blue  
**MST-01P** Pink  
**MST-01O** Orange  
**MST-01G** Green

**Maxi Pack with all 5 colours**  
**MST-MP5** £470.00

**WATCH A VIDEO**  
online at  
[www.totalsensory.co.uk](http://www.totalsensory.co.uk)

## musical footnotes

Back after customer requests, the musical footnotes are a pack of 8 coloured pads with notes C D E F G A B.

Ideal for exploring sound and music - perhaps follow along with a nursery rhyme or musical piece? Encourages group work with each person having their own note. Use your hands or feet to activate the sounds. The reeds vibrate when air is pushed through, pressing harder will make the sound louder although we do not recommend striking with any object.

Not suitable for outdoor use.

**SMF-MF** £395.00

## ear defenders

Dampens down sounds for those overly sensitive.

Suitable for ages 0-12 years.  
Adjustable Strap. Easy to clean.  
**SE-01** £12.99

# paletto plus

## interactive sound board

The Paletto Plus Interactive Sound Board uses large, bright switches to produce different sounds. Ideal for sensory rooms where you can interact in a group or one to one session with games such as "guess the sound?" or as a strategy for inclusion, it can provide auditory prompts to help a child tell a story sequence.

### Paletto Plus Interactive Sound Board

The Paletto revolutionary switch adapted board that is not only visually enticing to all its users, but encourages listening, communication and overall development. With 64 familiar sounds and the ability to record your own words, stories and music, Paletto promotes an interest and aspiration to learn and engage. Use a microphone to record your own sounds, making it the perfect aid to teaching and learning in a fun, interactive way!

The blue paletto plus keyboard is removable so you can use on your lap. Ideal for sensory rooms, activity rooms and nurseries. Eight brightly coloured wooden touch switches activate the sounds and create an interactive learning space, especially for those who are visually impaired.

There are 8 Categories, each with 8 different sounds; 64 in total;  
 Group 1 = Human Sounds  
 Group 2 = Hygiene

Group 3 = Indoor Sounds  
 Group 4 = Animal Sounds  
 Group 5 = Vehicles  
 Group 6 = Urban Sounds  
 Group 7 = What Profession?  
 Group 8 = Mixed Sounds

Board measures: 122cm length x 86cm height  
**IMWP-01** £1,695.00

# relaxation CDs

Music is one of the essential components to aid relaxation and stress release both at home and in sensory environments.

Our collection of ambient music includes both relaxation CDs of constant un-interrupted music by Tania Rose and spoken 'Quietminds' CDs by Alan Robertson. We would recommend Quietminds for use at home- perhaps as an aid to restful sleep. Tania Rose's collection is ideal as background music for stimulation in sensory rooms.

Our new collection includes 'Quiet Spaces' for those who suffer from hyperactivity, and two gender-specific CDs 'Princesses' and 'Superheroes' both with 16 enchanting meditations.

### DAB Micro Hi-Fi System

With CD player, AM/FM radio, headphone socket and 2 speakers. Wall mountable and sleek design.

# MUSii

*Introducing the new musii (multi sensory interactive inflatable), a new interactive music system designed for play and sensory therapy.*

The musii is a soft inflatable object that emits sound and is illuminated with colour when touched. It enables any non-musician to experience playing a musical instrument as well as offering stimulating visual and tactile sensation.

Easy to set up, no external speakers needed. With the single touch of a button the musii is inflated and ready to play.

The product combines an array of state-of-the-art technologies into one exciting product that invites participants of all abilities to control sounds and colour through touch.

**MUSC-01** £2,400.00

# auditory tub

Exclusively picked products to explore creative sounds at home or as part of a sensory session

## Xylophone

Tuned electronically for perfect tone producing wonderfully clear and rich sounds. C3-C4 complete with beater.

## Easy Grip Tambourine

Professional style with a chunky comfortable grip. 19.5cm diameter.

## Wave Drum

Colourful beads re-create sounds and rhythms of the ocean. Complete with mallet and a clip to store it at the side. 25cm diameter

## Clatter-Pillar

A quick flick of the wrist and the amazing clickety Clatter-Pillar makes a wonderful wave of sound.

## Train Whistle

Clear and rich sound - just like a real train! Ingenious design, easy to play and to clean. 22.5cm long

## Maracas

Classic design, very strong with terrific sound.

## Twirly Whirly Rainbomaker

A simple turn of the Rainbomaker creates a captivating combination of sound & colour. Watch and listen as a rainbow of colourful beads cascade through the tube recreating the soft sound of gently falling rain.

## Pop Up Storage Box

A Large 40.5 x 40.5cm pop up fabric box to store your Auditory Tub.

## Rhythm Pals Orchestra

Set of 4 different instruments to inspire musical creativity! Each instrument is designed to be easy to grip in bright colourful designs. Includes Bells, Clapping, Ringing, & Falling Beads sounds.

AT-01

**Total Price:** £189.99

# balance & movement

Sensory Integration including balance is an important part of sensory exploration.

The below products have been selected to aid physical co-ordination and cognitive stimulation and to increase self-awareness.

From full body rocking and stretching in the body sock to floating on water in the giant top.

## Body Sock

Body Socks are a movement, proprioceptive, tactile and deep pressure experience like no other! Made from Lycra, they provide great sensory input. Activities to try include mirror poses- have them make a silly position and hold it for 5, 10 or 20 seconds! Shadow poses- make funny shapes with the light off and a torch shined on them to show their shadow on the wall. Or you could see what types of animal walks they can do!

- BSK-01S** Small 65 x 100cm £77.50
- BSK-01M** Medium 80 x 120cm £77.50
- BSK-01L** Large 142 x 71cm £84.00
- BSK-01EL** X-Large 165 x 74cm £87.25

## HillTops - Set of 5

5 Hilltops in various heights to encourage balance and get a feel for heights! There is a rubber rim on the base to protect floor areas and prevent slipping.

**BAL-02** £103.99

## Body Rocker

Rocking has always been considered soothing and restful, but also fun and exciting. The gentle rocking sensation stimulates the sense of balance and increases the feeling of peace and security. The user can be rocked in the body rocker with assistance, or on his own by just moving the arms or knees from one side to the other. Also offers the possibility to be rocked in a cosy and safe way for those who cannot use ordinary swings. Moulded foam covered in flame resistant PVC.

Size: 150 x 70 x 30cm.

**BR-01** £385.00

## Parachute

A parachute will help communication, cooperation and teamwork with children. Inflating the parachute requires group participation in the game so this will provide an introduction to community life. It helps children develop their coordination. Made from fabric, polyester base. Supplied in a fabric bag.

### 3.50m diameter

Comprising 8 sections and equipped with 8 handles.

**PAR-S** £57.50

### 6m diameter

Comprising 12 sections and equipped with 12 handles.

**PAR-L** £89.50

A set of balls for the parachute consists of 25 opaque balls - yellow, red, blue, green and 1 net.

**PAR-CB** £12.50

## Giant Top

Rock it, Spin it or even use it as a boat in swimming pools (only under adult supervision). Shaped with a pointed centre to give children the feeling of turning upside down when moving the top 360 degrees around the centre.

Suitable for 3-10 year olds.

**BAL-05** £65.00

# swings

## Total Sensory Swing System

This free standing vestibular system offers you all the benefits of a ceiling suspension system without the installation costs and concerns. The system takes a maximum of 227kg/35.5 stone in weight, making it suitable for most adult users.

The Complete Vestibular System provides everything you need for vertical stimulation, direct flexion, linear acceleration, rotational experiences and a complete range of motion exercises. It also incorporates a vertical rotational system for a smooth, unrestricted range of movement to create vertical and rotational stimulation at the same time. Height adjustment allows quick changes to the proper position. The mechanism can be fixed in a stable position or set for swinging.

### The Complete Vestibular System contains:

Freestanding Frame, Net Swing with Positioning Seat, Flexidisk, Prone Net Swing, Mat for the Floor, Platform Swing, Roll Swing, and Rope with Ascenders.

**TSSV-CV** £2606.50 exc VAT

# seating & positioning

## Positioning Pillows

Positioning pillows provide semi-permanent positioning, moulding to the individual's body shape. The pillows are filled with small polystyrene beads that mould to your desired shape when air is extracted. When you release the valve, and let air into the pillow it regains its flexibility and is ready to mould again. Provides firm support for all parts of the body uniformly, reducing the risk of pressure points. They retain their shape for up to one month, before having to be re-moulded. Easy to clean and disinfect for multiple client use. Vacuum pump included with all pillows.

**SP-PP-01** Positioning Pillows - Sizes from 410 x 510mm to 560 x 860mm  
All prices include vacuum pump.

Blue Plus Models offer the same advantages as the white version, but with a higher grade of vinyl allowing it to retain its shape for up to three times longer. It is also even easier to clean.

- SP-PP-01S** White 410 x 510mm £337.75
- SP-PP-01M** White 560 x 305mm £341.46
- SP-PP-01L** White 560 x 660mm £379.75
- SP-PP-01XL** White 560 x 860mm £394.52
- SP-PP01BS** Blue Plus Model 410 x 510mm £355.95
- SP-PP01BM** Blue Plus Model 560 x 305mm £360.78
- SP-PP01BL** Blue Plus Model 560 x 660mm £380.94
- SP-PP01BXL** Blue Plus Model 560 x 860mm £420.28

## Positioning Cushions

### Posture & Prone Positioning Cushion - Small

Designed for postural drainage. When placed face downwards, the user is held securely and comfortably. When placed face up, it creates an effective pillow that gives good torso, neck and head support.

Length 483mm x Width 571mm x Depth 356mm. Weight: 1.8kg  
**SP-PP-02** £216.55 exc VAT

### Posture & Prone Positioning Cushion - Large

Designed for a range of conditions, including prone positioning as side rotation and slipping down are eliminated due to the unique support it provides. Visible reduction of high tone and the reduction of muscle spasm are soon observed. Whilst prone, good shoulder rotation can be achieved. Supine and side lying are also possible.

Length 965mm x Width 584mm x Depth 635mm. Weight: 5kg  
**SP-PP-03** £458.57 exc VAT

## Positioning Units

### Night Positioning Unit - Small

Used extensively with the care of the terminally sick. Great response from this very simple, lightweight and aesthetically pleasing unit. It has been especially designed for night positioning, placed as close to the crutch as possible to reduce hip rotation. Reduced night tone can be observed, therefore it acts as an inhibitor.

Length 483mm x Width 610mm x Depth 229mm

**SP-PP-04** £263.20 exc VAT

### Night Positioning Unit - Large

This unit copes with clients having reduced activity, e.g muscular dystrophy. Positioned as close to the crutch as possible, to reduce hip rotation.

Length 686mm x Width 610mm x Depth 2547mm

**SP-PP-05** £316.26 exc VAT

# pea pods

*Like peas in a pod, kids will love the deep pressure snuggle factor these inflatables provide.*

Designed by a therapist, the durable super strength vinyl is the key to its durability and deep pressure capabilities, while the flocked surface makes it soft to the touch and very comfortable. Perfect for calming and defining spacial boundaries.

#### Ideas for use:

- Most children should be able to crawl in and adjust the pea pod around them for that cocooning calm feeling. Watch TV, or read a book in your own safe space.
- Define spacial boundaries with the pea pod- for those who need extra help keeping their place on the floor, or those who dislike other children invading their 'personal space.'
- For rhythmic rocking- durable side handles make it easy for a therapist or parent to rock gently side to side.
- For added sensory stimulation, once the child is in the pea pod and snuggled down, add plastic ball pool balls, or other sensory textures to surround them.

**SPP-PP-R** Pea Pod Regular 60" (152.4cm) £265.00

**SPP-PP-G** Pea Pod Giant 80" (203.2cm) £285.00

# tactile products

*Touch is an important part of sensory exploration - some users really respond to different sensations and it helps relax them.*

We have a variety of different tactile products from Tactile Balls and Discs to new Density Blocks and Tactile Cushions.

## Set of 5 Density Blocks

These blocks allow you to adapt and develop fine motor skills according to the differences in density. Tactile products help refine sensations for sight-impaired children or those with reduced feeling in their fingers. Each density has a specific colour.

Block lengths are all L70cm, W20, H15cm  
Fitted with an anti slip base.  
Supplied with an educational booklet.  
**DB-01** £199.00

## Arctic Squeeze Fidget Balls

Each is 7cm in size. Pack includes 3 Arctic Balls. Durable gel filled ball with wonderful movement and texture. Excellent tool for special needs therapy. Challenge students to find the clear ice cube and polar bear inside!

**ST-ASB** £29.99

## Set of 6 Tactile Balls

The small PVC balls with gel literally mould themselves to the catcher's hand- they are one of the easiest balls to catch! They stop where dropped, making them a great alternative to bouncy balls. Simply slip the cover onto the ball for an additional tactile element! Set of 6 tactile balls, with removable surface washable tactile covers.

Designed by experts, perfect for use at home, in the classroom or sensory room.

**STB-YE** £55.00

## Air Cushion

Can be used to explore balance and co-ordination or as a seating cushion to stop fidgeting. One side is gently textured and the other is designed to stimulate a child's sensory receptors with tiny bumps.

**TAC-01**

35cm diameter: £65.00

60cm diameter: £95.00

## Set of 8 Tactile Feet

Set of 8 Tactile feet with 8 different textures, allows a child to work on finding their own body space while also stimulating tactile identification by creating sensory balance pathways.

There is 8 different textures. All feet are: length: 22cm, width: 12cm, thickness: 0.3 - 2cm.  
Supplied with 1 scarf.

**TF-01** £55.00

## Tactile Discs

Explore your senses with these tactile discs. The large discs measure 27cm diameter and are ideal for positioning on the floor. Match the smaller discs to the larger using the included blind fold.

Each disc offers a different tactile surface.

**TD-01** £62.95 (5 large and 5 small)

**TD-02** £125.00 (10 large and 10 small)

# tactile tub

Exclusively picked products to stimulate touch, vision & co-ordination.  
Comes complete with a pop up storage box making them ideal to bring into sensory sessions.

## tactile tub

### Glow in the Dark Sensory Ball

A rubbery, textured sensory ball that absorbs white light to glow in the dark! 16.5cm

### Mini Curves 'n' Waves

A fun tactile toy whilst also stimulating hand-eye coordination skills, visual tracking & colour recognition.

### Linking Rings

They provide tactile stimulation, as well as being small enough to carry around, or hook over your arm with the provided ribbon. Each cushion comes with a set of three potpourri bags- lavender, rose and bouquet garni to insert under the mesh at the front. You can also insert a small photo, as a reminder of a loved one lost, or a beloved pet.

**Pink Crushed Velvet**  
TP-TKCP £28.00

**Blue Crushed Velvet**  
TP-TKCB £28.00

**Black Fur**  
TP-TKCF £28.00

# tactile exploration

## Tactile Traffic Light Panels

Tactile Traffic Light Panels feature three tactile discs mounted onto brightly coloured plastic boards that have been curved on the corners to prevent sharp edges.

The synthetic rubber tactile effects vary, from smooth to rough surfaces, raised lines, rings, squiggles, squares or triangles. The discs measure 27cm diameter. Easily mounted to the wall, can be either horizontal or vertical. Ideal product to add a fixed tactile element to sensory rooms or to make corridors more colourful and interesting- perhaps leading to the sensory room.  
Size: 100 x 45cm

Tactile Traffic Light Panel (colours and disc vary)  
**TTLP-01** £165.00 exc VAT

## Sensory Motor Kit'

Explore 12 different tactile items all in one bag. Smaller items help develop fine motor skills, while larger items help develop gross motor skills. Includes ring, tactile balls in various sizes and styles, water mat, koosh balls and a tangle.

## Cuddle Cube

25cm<sup>2</sup> cube, covered on all 6 sides in soft, furry fabric in various prints with interesting colours to explore.

**CC-01** £75.00 exc VAT

# sensory dens

*Dark dens are ideal for creating environments where sensory equipment and toys can be used without the need for a dedicated sensory room.*

They are also ideal for use at home or in a multi-use room, to explore UV lights, glow in the dark items, fibre optics and projectors.

If you wanted to join several dens together, this is easily achieved with the extendable cube dens creating a sensory trail with auditory, visual and tactile stimulation. New 1.8m tall dens enable wheelchair users and taller people to create a safe, calm space to explore sensory in. We also have a number of other dens offering excellent value such as the new 'Creative Den'.

## sensory dark den

This affordable den has a thick layered cover to create a dark environment ideal for exploring sensory environments with UV equipment, projectors, glowing toys, torches and fibre optics. Our UV Play 'n' Go case is ideal for use in this den or the mini UV den kit - see opposite.

"The children were immensely excited about the den and couldn't wait for their turn. It was very easy to put up and greatly stimulated a child with complex needs. It is excellent value for money."

W100 x L100 x H100cm

**SDD-OR** £99.99

## large dark den

Giant version of the dark den at 1.8m high and 1.5 x 1.5m floor size.

With this den, you can fit a group of children or accommodate those who need a little more space. Easy to assemble and pack away into storage bag.

H182 x W150 x L150cm

**SDD-GO** £135.00

## creative den

New! A blank canvas to inspire creative minds- splash with colour both inside and out, or teachers can theme for particular events or learning topics.

Add comfy cushions so users can sit or lie to draw. Explore your art work with a UV torch! Includes colourful chalk to get started straight away!

W79 x D76 x H81cm

**SDD-CU** £245.00

## mini UV den kit

A starter Kit for exploring UV equipment in the dark. Draw shapes and patterns in the air with the Draw 'n' Glow kit; push the roller shaker around the den watching the beads glow; and hang bright UV tubing and fabric around the den.

Kit contents:

- UV Torch
- UV Fabric
- UV Line Lite Tubing x 2
- Draw 'n' Glow Kit
- Roller Shaker
- Glow in the Dark Gloves

**MUVD** £152.42

## total UV den

Create a world of colourful and engaging products using UV light. This den has been created to give you everything you need to explore UV including:

- Black and White Pod with flap for the door and velcro receptive strips
- 1.2m Square UV Mat- fluorescent orange and fluorescent yellow on either side so you can flip it over for a change!

- UV-1001 Sparkle 'n' Glow Fibre Optic Strands and lightsource. Use the lightsource to make the fibres sparkle and then unplug and use the UV torch to make the fibres furiously glow!
- UV Torch
- UV Soft Play Dice
- 9 Giant Bubbles Mirror
- UV Creative Draw 'n' Glow Cushion- use the special pen to draw shapes and text in the dark that glows and then disappears like magic!

**SUVD-01** £895.00

## total sensory den

A whole world of sensory in a dark, safe space!

This Total Sensory Den is an excellent introduction to sensory equipment and exploration, especially useful where you need to create a darkened environment or where space is limited. Includes:

- Black and White Pod with flap for the door and Velcro receptive strips

- 1.2m square Fibre Optic Carpet as the base
- 9 Giant Bubbles Mirror
- SS-751 Sparkle Sensory Strands and lightsource
- Sensory Musical Gloves
- Tactile Discs
- Tactile Balls
- Galaxy Stars Projector
- UV Creative Draw 'n' Glow Cushion- use the special pen to draw shapes and text in the dark that glows and then disappears like magic!

**TSD-01** £1499.00

Available to turn a tall 1.2 x 1.8m den  
into a whopping 2.4m long x 1.8m tall.  
**SDD-WBET** £380.00

# warm 'n' cool

## weighted blankets

Total Sensory's range of weighted blankets are designed by a Paediatric Occupational Therapist who is trained in sensory integration therapy. They are filled with gel to create a grounding weight and provide a greater sense of your body.

The main function of a weighted blanket is to increase deep pressure input to the body which facilitates the release of chemicals (dopamine and serotonin) from the brain which calm and relax you. They should never be used as a restraint or to wrap the client or child up in, and never cover the client's face.

All the blankets have a removeable cover for washing and the gel filled blanket can be easily wiped clean with a sponge. The blanket can be heated by placing in a clothes dryer for 5-10 mins, or cooled in a freezer for those hot summer nights where weight is still desired to sleep. All blankets come with a winter cover – duvet style – and a summer cover – a cotton cover.

**TSR-CF** £22.50

### Hand Held Mirror

Hand held frame with safe acrylic mirror for up close exploration. Approx size: 27 x 18cm

**TSR-HM** £22.50

### Sensory Musical Gloves

Simply put on the gloves and press your fingertips down onto any surface to play your own musical creation! Each fingertip represents a different musical note, and there are 8 built in instruments to choose from; piano, bass, violin, trumpet, xylophone, music box, guitar and drum. Background rhythms can be added for when you really get going!

Volume and Tempo controls are on the control unit. The unit can also be clipped onto your belt for making music on the move! Powered by 4 'AAA' batteries, included.

**TSR-SMG** £99.99

### Weighted Snake

1.7kg bead filled weighted snake. Soft and cuddly, they make the perfect weight for hanging around your shoulders or coiled up on your lap. Ideal for use in the car or classroom.

**WS** £29.99

### Hand Held Tubie

Encourage hand-eye co-ordination and tracking with this hand held tubie. Watch the coloured balls disappear and reappear in the transparent tube, which is ribbed and interesting to feel. Four balls included. Approx size: 23cm.

**TSR-HT** £25.00

### Hand Bells

Beautiful set of 8 hand bells designed for children to use. Each bell is differentiated by colour and sounds one note of the octave so with the full set there is a complete octave. The set comes with an A4 sheet of music with the notes specifying the colour of the bell to be rung so a group of children can enjoy playing music together. It is great for encouraging interaction and teamwork. Ages 3+.

**TSR-MB** £24.00

### Emotion Balls

How do you feel? Express yourself using these balls. Set of 6 emotions: happy, angry, sad, amazed, excited, frightened.

**TSR-EB** £19.99

# sensory small resources

## Mini Vortex Bubble Tube

A dancing vortex of water and light! Colour changing LED's light up the water while you watch a spinning vortex build up inside. Great sensory product. Mains powered.

Lively and Fun Safari Themed Wall Panel combines art and play! Featuring colourful images of animals and plant life you would encounter on a safari. Made up of 3 panels with our popular flipper and paddle wheel with a large size alphabet toy. Great for libraries and waiting rooms. Dimensions: 154 x 76 x 10cm  
**AWP-SAF** £625.00

# floor & wall padding

We provide soft coverings for all applications from behind a bed at home or in a residential location, to a full padded room with custom made padded seating areas.

The foam we utilise is of a high grade and density- so its durability over time is much improved compared to some thin, soft foams you can get that do not retain their shape and depth. The vinyl is wipe clean and comes in a variety of colour choices, all professionally sewn to create a neat finish.

## There are two types of wall coverings we can provide:

- 1. Fixed Connection** – (PICTURED) this type comes with a tab top and bottom (a lip, if you like), unique to total sensory. This type is suitable for any application where the users may attempt to remove the padding. Screws and raw plugs are not provided as this depends on your own type of wall i.e plaster or hard bricked etc. We do provide plastic domes with every fixed connection wall pad. These come in white, dark blue, black or yellow. These domes fit over the screws so the screws cannot be tampered with. Tab top padding can be replaced or re-covered if required.
- 2. Velcro Connection** - this type doesn't have a tab top, instead we provide velcro and plastic strips for you to secure to your wall and line this up with the velcro provided at the back of the wall pads. We can provide the pads soft backed, or with a thin board backing. Velcro connection is ideal for those who would like to remove pads in the future, or would like the option of easily replacing individual pads.

Floor padding is provided with velcro strips.

The thickness of our floor or wall padding is 50mm or 100mm.

We can provide supply only, or we can quote for fitting.

### Procedure for a full room:

If you are looking to fit out a complete room, we will require you to complete our padding requirements form, that you can download from our website. We can then provide a budgetary price for your requirements and if this meets with your approval, we will proceed to the next stage where we take a deposit and arrange for a site visit to confirm all measurements and any obstructions. We can send out swatches for colour selection and once we have your choices, production can then commence, and we can arrange a fitting date. Please note delivery timescales are dependent on the overall size and structure of your room, as a guideline we averagely allow 4-6 weeks from production to completion.

Consists of 3 corner pieces, 2 palm trees, 1 target container. 144cm x 144cm.

All are 30cm high.

**RA-PG** £625.00

# zoned padded areas

*Zoned areas create a safe space for quiet play, reading or relaxation. Ideal for nurseries, or to create a 'pop up' sensory area that you can dismantle and move if required.*

**A choice of colours including: Red/Orange, Blue, Green and Natural.**

A range of square relaxation areas padded with vinyl mat plus backrests covers and wood barriers for comfort and safety.

You can either have a square relaxation area, or a large square relaxation area if you need more space. They all come with 4 sets of right angled hinges and 6 sets of straight line hinges.

Why not create a sensory zone within the area using one of our play n go sensory suitcases? The vinyl is wipe clean, so you can get as messy as you like! Incorporate aroma play dough, tactile products, or play a game with hand bells, or musical footnotes? The uses for this space are endless, and with the added convenience of being able to take it with you, should you relocate or are unable to fix padding to the walls.

#### **The square relaxation area**

192cm x 192cm.

Consists of: 6 barriers - L: 96cm, 2 barriers - L:48cm, 6 mats - 96cm x 48cm, 1 mat - 96cm x 96cm, 4 corner backrests, 3 backrests - L: 96cm.

**ZA-SZ** £2350.00

#### **The large square relaxation area**

240cm x 240cm.

Consists of: 7 barriers - L: 96cm, 4 barriers - L: 48cm, 2 mats - 96cm x 48cm, 2 mats - 96cm x 96cm, 2 mats - 144 x 96cm, 1 mat - 48cm x 48cm, 4 corner backrests, 3 backrests - L:48cm, 3 backrests - L: 96cm.

**ZA-LSZ** £2650.00

# soft play padded mats

Our new range of fun Soft Play Padded Mats are ideal for use in schools, nurseries, crèches and for use at home. The picture mats offer vibrant scenes to encourage learning- our favourite is the 'Spot the Animal', helping to learn at home or encourage group learning at nursery.

All our new plain and picture mats are produced using high density foam - so it doesn't collapse when you sit on it. All mats are 1.2 x 1.2m with 35mm thick foam. The mats are professionally sewn with a concealed zip at the back. Please inform us if you require the mats to be joined together.

Please see page 72 for colour choices

## 1.2m, 40mm thick Foldable & Extendable Rainbow Mat

Fitted with carry handle, these mats fold in half for easy storage when not in use. They are also fully extendable with hook and loop fastener, so you can add as many extra mats as you like! Wipe clean, fire retardant, Phthalates Free foam. Dimensions: 1.2m x 1.2m

**SPM-05** £160.00

## Plain Mats

1.2 x 1.2m, 35mm thick  
Please see page 72 for colour choices.

**SPMF-01** £129.00

## 1.2m x 1.2m UV Mat

With two fluorescent colours on either side- orange and yellow. This mat is 5cm thick and will glow under UV spotlight.

# soft play mirrors

Acrylic Mirrors are popular in sensory rooms, soft play rooms or for use at home. Notorious for their tough, shatterproof design, these mirrors provide functionality and fun.

BS EN71 compliant; made with non-shatter, non-splinter, "hammer tough" plastics.

Clean with a damp cloth or furniture polish, never with abrasive or ammonia based window cleaners which may damage the mirror. Recommended for indoor use only.

## Soft Framed 9 Giant Bubbles Mirror

A myriad of images multiply with this wonderful moulded plastic safety mirror. Set in a colourful soft foam filled frame, the mirror is from a really durable, hammer tough, shatter resistant safety plastic. The frame is made from phthalate free, fire retardant material and wipes clean easily.

Mounting plates provided, but not wall fixings. Frame comes in black and white, multi-coloured or all white (for white rooms), please specify when ordering  
Dimensions: 850mm square

**AM-05** £189.00

## Hand Mirrors (2 Pairs)

2 Pairs (4 hands) of shatterproof, safe plastic mirrors measuring 250mm each. Safe edges, tough material. Comes with self adhesive pads.

**AM-03** £34.99

## 3 Giant Bubbles Mirror

These mirrors have three 220mm convex "bubbles." Can be mounted horizontally, vertically or for use as a border. Self adhesive pads included. BS EN71 compliant; made with non-shatter, non-splinter, "hammer tough" plastics. Dimensions: 750mm x 250mm

**AM-07** £89.99

## 9 Giant Bubbles Mirror

9 convex bubbles scatter light and images for an interesting effect. Self adhesive pads included, for wall mounting. BS EN71 compliant; made with non-shatter, non-splinter, "hammer tough" plastics. Dimensions: 750mm x 750mm

**AM-08** £129.99

# body rocker

*Rocking has always been considered soothing and restful, but also fun and exciting.*

The gentle rocking sensation stimulates the sense of balance and increases the feeling of peace and security. The user can be rocked in the body rocker with assistance, or on their own by just moving the arms or knees from one side to the other.

Also offers the possibility to be rocked in a cosy and safe way for those who cannot use ordinary swings.

A 50cm extension part can be fitted to the body rocker with strong velcro fastening as an accessory for tall users.

Size: 150 x 70 x 30cm

Material: Moulded foam covered in flame resistant PVC

Yellow or White available.

## **Body Rocker**

150 x 70 x 30cm

**BR-01** £385.00

## **Extension to Body Rocker**

50 x 70 x 30cm

**BRE-01** £185.00

# soft play ball pools

Total Sensory offer a wide range of Soft Play Ball Pools, use alone or add to a Soft Play Area.

## step 'n' slide ball pool

Promotes childrens' all-round development through hours of imaginative play in a safe environment in their very own brightly-coloured ballpool, whilst interacting and socialising with other children. SGP-EBS £250.00

**Story Circle with 8 Block Seats**  
SGP-SC8BS £1,850.00

# music and mirrors

## Candy Colour Chimes

Candy Coloured visually appealing chimes mounted on two timber posts. There are 8 two inch diameter chimes, mounted on a timber frame. When installed they stand 1.5m tall and provide an interesting musical piece for your sensory garden.

**SGP-CCC** £985.00

## Ladder Rattle

1m high x 1.5m wide.  
**SGP-LR** £415.00

## Rainwheel

Gentle sounds of rain captivate when you spin the wheel.  
**SGP-RW** £895.00

### Harmony

Elegant, with an irresistibly beautiful sound and breath-taking resonance. Harmony is perfect for melodic exploration. Like a vertical marimba or xylophone, the 11 extra thick aluminium tubes supported by heavy-duty nylon coated galvanised steel cables are arranged harmonically in the c-major pentatonic scale to produce a sweet, happy, high-pitched sound.

1827 x 857 x 700.  
**SGP-HM** £1,599.00

### Babel Drum

Fabricated of stainless steel our Babel Drum has been carefully tuned to replicate the sweet sound of steel pons. Played with the hands, preferably by striking with the fingertips, the 6-notes produce perfect musical tones typically associated with a tropical setting.

1300m high x 420 diameter.  
 Babel Drum Large is the same but a larger version of the drum.  
**SGP-BD** £1,260.00

### Eye Chimes

With the largest standing over 3m in height, our Emperor Chimes really are large in sound and size. Three different sizes span the primary c-major chord with a very deep, profound sound and unparalleled sustain. Striking the chime just about anywhere along the tube produces a deep, resonant, powerful tone that you not only hear, but feel as well. The harder you strike, the more it will vibrate, creating a louder sound with such resonance you can actually feel the vibration through your entire body.

**SGP-EC** £2,196.00

### Marimba

In the scale of c-major, the 11 hand crafted hardwood notes are supported by heavy duty nylon coated galvanised steel cables. The elegant stainless steel stands will look amazing anywhere, from a public park, school playground or a private garden area.

**SGP-MB** £1,980.00

# music and mirrors

## Sound Centre

For small spaces, the sound centre creates a sensory environment by combining music and planting.

**SGP-SC** £3,995.00

## Tubanos Drums

These five tubano styled drums are made with replaceable PVC heads ranging from 170mm to 400mm in diameter. The drums can be fixed at varying heights to suit your needs. The bases of the drums can be permanently installed directly into the ground in a choice of arrangement or supplied with a timber base. The drums can be painted in any combination of colours.

**SGP-TUD** £1,420.00

## Flying Amadinda

The Flying Amadinda's thirteen 20mm by 90mm bars are suspended between a sturdy frame with an overall length of 18m. Coated steel cable suspending the bars is maintenance-free. The bars are made of weather-resistant ipe from sustainable sources. It is tuned to C major in the pentatonic scale.

**SGP-FA** £1,820.00

## Turtle Drum

The Turtle Drum is a robust, rhythmical musical instrument but is also a stunning play sculpture. 1.4m x 1.7m area.

**SGP-TD** £1,165.00

### Mirror Chimes

The Mirror Chimes are highly polished Stainless steel notes that give a unique sound whilst reflecting the surrounding environment. The chimes can be mounted using the new universal wall mounting brackets (provided).

**SGP-MC** £1,260.00

### Wall Mounted Marimba

The Wall Mounted Marimba has polished GRP notes that give a unique oriental sound. GRP is extremely durable and can be made to look like wood. The Marimba can be mounted using the new universal wall mounting brackets (provided).

**SGP-WMM** £1,260.00

### Wavy Fun Mirror

Create a distorted image with this wavy fun mirror. Measures approx 4ft tall x 2ft wide.

Available as:

- Freestanding with legs
- Wall Mounted
- With posts ready for cementing into the ground

**SGP-WFM** £370.00

### Convex Mirror Panel

Can be wall mounted or post mounted.  
0.6m length x 1.4m width.

**SGP-CXMP** £765.00

### Concave Mirror Panel

Can be wall mounted or post mounted.  
0.6m length x 1.4m width.

**SGP-CCMP** £765.00

# tactile and social play

## Tactile Panel

15 touchy-feely materials make up this panel that is supported between two chunky posts. Encourage children to experience the different textures and shapes and describe the sensation. Investigate which materials are hotter or colder than others. Trace the outline of the spider and discover which hand fits the textured shape; the panels are visually appealing with primary colours to name. This item can be positioned against a wall or installed in an open location (slight variations in design may occur).

**SGP-18** £925.00

## Sensory Totem Posts

Choose between our 5 sensory totems!

**STP-TS** Taste and smell

**STP-SC** Sight and colour

**STP-SH** Sound and hearing

**STP-ST** Spirit and time

**STP-TM** Touch and movement

1.5m high.

£345.00

## Activity Panel

Choose from either a blue or yellow activity panel with various spinning shapes with balls inside, rotating dice, donut discs, and a large spinning wheel. Measures approx 4ft tall x 2ft wide Available as:

- Freestanding with legs
- Wall mounted (will stand ajar)
- With posts ready for cementing into the ground

**SGP-AP** £435.00

## Dizzy Disc

Loved by all, it especially focuses on those with visual impairment or children within the autistic spectrum. Requires wooden structure/panel to mount to.

0.7m height x 0.5m width

**SGP-DD** £345.00

### Coloured Noughts and Crosses

Visually appealing game of noughts and crosses. Freestanding version ideal for shows, or use at home. Measures approx 4ft tall x 2.5ft wide.

Available as:

- Freestanding with legs
- Wall Mounted
- With posts ready for cementing into the ground

**SGP-CNC** £280.00

### Talking Flowers

The pair of talking flowers are linked below ground and can be installed up to 10m apart. The underground tube carries voices and sound from one flower to the other. Made from steel with a heavy duty plastic top.

**SGP-10** £1076.00

### Double Sided Blackboard

Create Art outside with this double sided blackboard. Measures approx 4ft x 2ft.

Available as:

- Freestanding with legs
- Wall Mounted
- With posts ready for cementing into the ground

**SGP-DSB** £230.00

### Wiggle Bars

New sensory garden wiggle bars, ideal for developing hand- eye coordination. Move the ring alongside the bar without touching it! The large garden version of the old buzzer game, but without the shock! Two timber posts support a curved steel bar, which is threaded through a plastic ring. Overall size 2.4m x 1.2m

**SGP-WB** £995.00

# dens and bridges

## Teepee

The Teepee has two entrances, designed to be just big enough for adults to get through but small enough for children to feel at home. Children can look out for cowboys through the two circular windows as well as making it easy for the cowboy (aka adults) to keep an eye on the little Indians.

2m x 2m x 2.6m height.

**SGP-TP** £2,160.00

## Vanilla Playhouse

The Vanilla playhouse is a versatile structure that can be used for all kinds of role play, or as a quiet place to sit and relax in the shade.

1.4m length x 1.6m wide x 1.9m high.

**SGP-VPH** £1,345.00

### Chadsgrove Bridge

With 3 access points and a central platform, the Chadsgrove Bridge can be enjoyed by several users at a time. The gentle undulations provide an interesting sensation for wheelchair users or more of a challenge for those on foot.  
**SGP-WB** £2,135.00  
**SGP-CHB** £5,249.00

### Wave Bridge

1.3m x 3m x 1m.  
**SGP-WB** £2,135.00

### Clatter Bridge

Bridge measures 1.2 x 2.1m.  
 5.1m x 4.2m space required.  
**SGP-CLB** £1,790.00
