DATA DESTRUCTION

Operating from our high security facility, S2S Group UK deliver secure, corporate data solutions. From end to end IT asset management recycling to complete data or document destruction, S2S Group UK are able to offer a comprehensive 'one stop in-house solution'.

What S2S Data solutions can offer you:

- A bespoke end-to-end service, tailored to your individual requirements and keeping you compliant with the Data Protection Act.
- On-site data destruction – witness your data shredded or degaussed at your own premises.
- Off-site secure destruction at S2S high security premises by screened staff.
- CESG approved data erasure to UK Government approved HMG IA standard No 5 Issue status.
- Data wiping and certification (to FCA policy requirements)
- Asset tracking and checking throughout.
- The option of detailed inventory reporting, certification and recycling rates.
- Secure shredding up to IA standard No 5.
- A dedicated account manager.
- A safe contractor approved service. ADISA, CPNI, ISO 9001, ISO 14001 and ISO 27001 accredited.
- 100% data destruction guaranteed!
