

Spillvac

Spillvac | Interceptor Kit

The Spillvac Interceptor Kit allows liquid to be drawn immediately into a 200L drum using the draw force of the vacuum unit. This allows liquid to be collected straight into the receptacle for disposal or recycling as opposed to collecting it into the vacuum unit then transferring it to a 200L drum.

The interceptor kit consists of two stainless steel fittings engineered to fit into the top of a standard metal 200L drum.

Fitting 1: connects to the vacuum unit via a section of hose (see main diagram)
 Fitting 2: connects to hose with brush, wand or other tool (see main diagram).
 Compatible with 110V and 240V Spillvacs

Interceptor Kit | Draws liquid directly into 205L drum

Code	Description	Application
WD-INT-KIT-A	Interceptor kit for 315, 429, 629 and 640 units	Wet & dry. Do not use with flammable liquids.
WD-INT-KIT-B	Vacuum to drum fitting, Drum to vacuum hose tool, 2m length of hose, Metal drum dolly	Wet & dry. Do not use with flammable liquids.
WD-INT-KIT-C	Vacuum to drum fitting, Drum to vacuum hose tool, 2m length of hose, Polyethylene drum dolly	Wet & dry. Do not use with flammable liquids.

WD-INT-KIT-B

WD-INT-KIT-C

Spillvac | Wet and dry vacuum cleaners

WARNING: not for use with flammable liquids
