

Why buy Contact's drum tongs?

No Quibble Guarantee:

If you are dissatisfied in any way with your Contact drum lifter's performance, return it to us, and we will refund you in full.

Tested & Certificated:

All Contact's drum lifters and tongs are 'CE' marked, fully tested and come supplied with Certificates of Conformity for compliance with Health & Safety regulations.

Easy To Handle:

With a lightweight construction, Contact's drum lifting tongs can be easily handled by one person, making fitment and storage easy.

Simple To Operate:

With a choice of either semi automatic or fully automatic operation, Contact's drum lifting tongs are designed to simply fit onto the rim of the drum. Semi automatic drum tongs require a simple flip of the latch in order for the gripping pads to lock onto the drum, whereas the fully automatic version, requires no manual involvement whatsoever.

Grips Firmly:

Positive gripping of Contact's drum lifting tongs ensures drums are gripped firmly and securely without any risk of dropping or falling.

Designed To Suit Most Drums:

With a wide range of drums now on the market, Contact's drum tongs can be used with both 210 litre steel drums and 210 litre 'L' ring and 'XL' ring plastic drums. This ensures the most popular drums in the market can be handled with this versatile drum handler.

We hope the above helps demonstrate the quality and safety features of a Contact forklift drum tong, and welcome the opportunity to supply you with a high quality forklift drum lifter that will assist in your drum handling requirements.
