

Why buy Contact's pedestrian salt spreaders ?

No Quibble Guarantee:

If you are dissatisfied in any way with your Contact pedestrian salt spreaders performance, return it to us, and we will refund you in full.

Tested & Certificated:

All Contact's pedestrian salt spreaders are 'CE' marked, fully tested and and come supplied with Certificates of Conformity for compliance with Health & Safety regulations.

Large Hopper:

Maximum salt spreading can be carried out with Contact's pedestrian salt spreader due to the large non corrosive 50kg capacity hopper.

Easy Operation:

With a large flow regulator, powered by heavy duty stainless steel gears, Contact's pedestrian salt spreaders allows for easy and effortless operation.

Easy Movement:

Pushing Contact's pedestrian salt spreader couldn't be easier. With large 330mm pneumatic tyres, pedestrian salt spreading can be carried out with ease.

Controlled Spread Pattern:

To control the spread pattern when using Contact's pushable salt spreader, and to protect vegetation from over spread when it comes to gritting pathways, all of Contact's pedestrian salt spreaders come fitted with deflector plates as standard.

Long Service Life:

Manufactured from one piece fully welded steel frame utilising solid control linkages that do not stick or stretch, Contact's pedestrian salt spreader can be relied upon for your ice gritting requirements, year after year.

We hope the above helps demonstrate the quality and safety features of a Contact pedestrian salt spreader, and welcome the opportunity to supply you with a high quality manual salt gritter to suit your ice gritting requirements.
