

Why buy Contact's forklift sweepers & brushes ?

No Quibble Guarantee:

If you are dissatisfied in any way with your Contact forklift sweepers performance, return it to us, and we will refund you in full.

Tested & Certificated:

All Contact's forklift yard sweepers are 'CE' marked, fully tested and and come supplied with Certificates of Conformity for compliance with Health & Safety regulations.

Effective Sweeping:

Available with either 5 rows, 8 rows or 11 rows of polypropylene bristles, Contact's range of forklift sweepers and brushes prove an effective solution to forklift yard sweeping.

Long Service Life:

Encompassing heavy duty steel shrouds and replaceable polypropylene bristles, Contact's forklift sweepers are designed to withstand the rigours of everyday use, whilst the replaceable bristles extends the service life for years to come.

Minimal Maintenance:

With few moving parts, the design of Contact's forklift brushes allow for virtually maintenance free sweeping with low service costs and minimal downtime.

Easy Fitment:

Fitting of Contact's forklift yard sweeper to the forklift truck couldn't be easier, depending on the model of sweeper chosen, fitment and securement is either carried out by 'T' screw retaining bolts, or fork sleeve with fork heel pin retention.

Adaptable:

With integral fitted lugs, Contact's range of forklift sweepers can be retro fitted with a magnetic bar, which will allow ferrous metal to be collected whilst you sweep.

We hope the above helps demonstrate the quality and features of a Contact forklift sweeper, and welcome the opportunity to supply you with a high quality forklift yard sweeper to suit your site cleaning operations.
