

Why buy Contact's radiused fork sleeves ?

No Quibble Guarantee:

If you are dissatisfied in any way with your Contact radiused fork sleeves performance, return it to us, and we will refund you in full.

Tested & Certificated:

All Contact's forklift radiused fork sleeves are 'CE' marked, fully tested and come supplied with Certificates of Conformity for compliance with Health & Safety regulations.

Handle Rolled Products Without Damage:

With the radius tops, providing a greater load bearing area, Contact's radiused top fork sleeves allow rolled products to be handled with damage.

Complies With Regulations:

complying with BS EN regulations, all of Contact's radiused topped fork sleeves allow for a rear 'closed base' strap design which ensure the fork sleeves do not ride up the back of the forklift forks.

Secure Fitting:

To ensure the fork sleeves are safely secured to the forklift forks, Contact's radiused fork sleeves all come supplied with heel pin retention, locking the fork sleeves to the back of the fork.

We hope the above helps demonstrate the quality and safety aspects of Contact's radiused top fork sleeves, and we welcome the opportunity to supply you with high quality fork sleeves to assist your roll handling requirements
