

Morclean GLIDE

The Morclean Glide is a mobile single brush vehicle wash machine manufactured within a sturdy stainless steel housing. The Morclean Glide edition is designed to not only make vehicle washing easier, but is also a cost effective and environmentally friendly alternative to the large industrial 3 brush vehicle wash systems.

This user-friendly alternative has built-in water saving jets that ensure little waste; saving you valuable cleaning time in the process.

To operate, the operator pulls the machine along the vehicle so the machine can reach all parts of the vehicle. Washing time is approximately 5 minutes for a 12 metre vehicle.

Includes:

- Frequency control
- Reverse rotation direction
- Control box
- Detergent dispenser
- Option of wax
- Splash brushes
- Quick disconnect hose and electric cable

Technical Specification

Washing heights of (mm) with brush reversal	3200/3800/4100/4500
Overall height	+100mm
Weight	175kg
Electric soap pump	230 VAC
Brush diameter	900mm
Inclination of washing brush	10 degrees
Max. terrain slope	5 degrees
Water consumption	18-22 l/min
Power	1 x 230/PE 1.2kw
Brush motor	1100 watt
