# Dominion Gas

## Where Reliability Matters

Established in 1988, we at Dominion Gas pride ourselves on our ability to offer a wide product range with a team of technical specialists on hand 24/7 to provide exceptional service and support when required.

Dominion Gas and Argon Isotank constantly strive for innovation and excellence. We work closely with our customers to ensure we continue to set industry standards through our high quality product portfolio.

From design and project management, to repairs and material supply, we aim to deliver flexible and safe solutions designed to meet our customer's exact requirements.

Our facilities globally include UK, Norway, Singapore, West Africa and the Gulf of Mexico. We continue to offer flexibility in our supply and support our customer's requirements worldwide. Being part of the Praxair

organisation provides an unrivalled global support network, but our values remain the same.

For security of supply and a solution to your needs, look no further than Dominion Gas and Argon Isotank.

---

**Dominion Gas offers an unparalleled level of service to its customers globally. Being part of a world-class organization like Praxair is exciting for the Dominion team as well.**

# Our Global Reach

## Making our planet more productive.

Our global reach shows huge growth since our beginnings in 1988 in Aberdeen, Scotland. As part of Praxair, Dominion Gas and Argon Isotank now have a network spanning five continents across 60 international locations. Below is our current footprint which is continually growing and improving, thanks to our on-going global investment programme.
