Tread Covers

Many different stainless steel and plastic fixings / parts are available to assist you in your project. On the next pages you will find details and prices for all fixings products. We stock all the regular fixings for gratings and handrails as well as many purpose made fixings.

We also have access to low-cost tooling for the manufacture of bespoke fixings in steel and stainless steel and plastic injection mouldings. Please call if you require further details.

Our range of fixings is ever expanding so if you do not see what you are looking for then give us a call.

Use M clips to fix grating panels down securely. M clips are available for 12mm, 15mm, 20mm, 25mm, 38mm and 50mm gratings.

G clamps can be used to join panels of grating together where there is no support. Clamps are available from stock for 25mm, 38mm and 50mm grating depths. This type of clamp can't be used if the grating panels join on a support or if the panels are fixed directly to a solid floor.
