

L'Care LC400 LED MEDICAL GRADE LIGHT SOURCE

L'CARE-LED Cold Light Source			
			
Product Name	LED Cold Light Source	Model	LC-400
Specifications and Description			
Input Voltage	AC110~240V		
Input power	80W		
Project	Parameters		
Single LED drive current	Maximum 9A		
Light intensity (through endoscopy)	80000lux (Brightness is the same with 400-watt xenon headlights cold light source)		
Luminous efficiency	350 mA/mm2 Every watt of illumination is than 100lumens		
Thermal Interface	Heat sink thermal resistance of the junction is only 0.9 C / W		
Life	40000 H		
Environmental Protection	Meet the RoHS standard		
Weight	7KG(GW)
