

L'Care LC-CO2 INSUFFLATOR

L'CARE-CO2 Insufflator	
Product Name	CO2 Insufflator
Model	LC-V30
Specifications and Parameters	
Voltage	AC 220V 50HZ
Rated Pwr.	40VA
Range of Press.	5~30mmHg
Range of flw.	10~30L
Safe classification	Type I Model B
Run mode	Inter loading/Cont. Duty
Noise	≤50dB
Host size	330*330*120mm
Weight	9kg
Functions and Features	
<ul style="list-style-type: none"> ⊙ Gas flow volume and abdominal pressure can be controlled by micro-computer technology automatically; ⊙ With the advanced principal of Pulse CO2 Gas Supply, gas supply can be adjusted automatically according to the preset abdominal pressure; ⊙ Gas cylinder pressure, actual abdominal pressure and inflating volume are displayed in mercury; ⊙ With the electrical protection system, the light and sound alarm will be triggered in abnormal conditions.
