

Eye-catching 3D print that draws customers in!

Fun and attention grabbing lenticular print creates 3 dimensional images that **demand a closer look**. Printed at 100 lines per inch on 0.6mm PET, it's a surprisingly **low-cost** way to create a **high-quality** promotion. Unlike card alternatives, your unique 3D design is **wipe-clean, protected** and **long-lasting**.

With the ability to print **almost any size** and shape up to A2, the **possibilities are endless...**

3D Cheque/Counter Mats

- Available in any size up to 245 × 345mm
- Square-cut and custom shapes possible
- 2mm foam underside with optional adhesive for long-term placement

3D Table Talkers

- Available in any size and shape up to 200 × 200mm face size
- Provides double the display area and visibility of a conventional strut card, and with much greater resilience
- Ideal for cafés, bars, clubs and restaurants

Flat-pack design with tab and slot assembly

3D Posters

- For lightboxes, poster frames, plus wall and window displays
- Available in any size up to 585 × 792mm (e.g. A2 / 20" × 30")

In 3D, the picture's elements are positioned on different levels, showing depth as the viewing angle changes

... plus shelf wobblers, open/closed signs, labels and magnet mounts – to name but a few!
