Double-See™ Vinyl Double Containment Piping Systems

www.georgefischer.co.uk

Features, Advantages, Benefits

- Revolutionary Closure Coupling Design
- Innovative Centralizer Design
- Factory Assembled and 100% Tested Fittings
- Cut Length Guidance System
- Extensive Standard Part Selection
- Modular Components
- Multiple Leak Detection Options
- Reliable Construction
- GF Quality
- Custom Fabrication Available

Installation versatility allows simultaneous joining throughout a system or in combination with patented closure couplings which enable practical compliance with the ASME B31.3 requirement for visual inspection of all primary joint connections during the pressure test before closing the secondary piping joint.

Double-See is suitable for a wide range of applications including water and waste water treatment, chemical delivery, dosing and processing, microelectronics, life sciences, metal working/finishing, waste collection, and many others.
