

Bellseal Fix'nSeal tenaciously adheres installations to all wall and floor materials and accommodates the level of movement between structure and fitting which is to be expected following installation and over time.

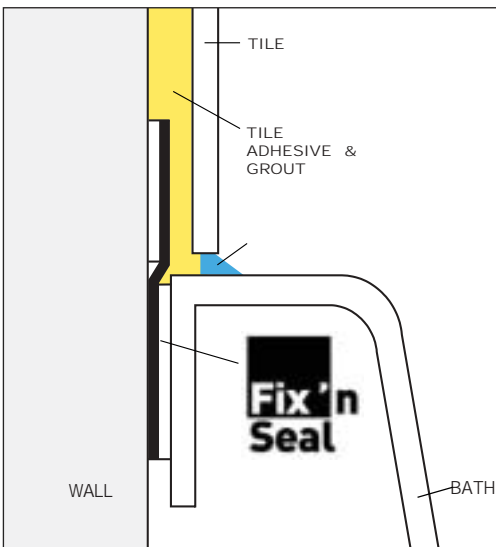

The product works in harmony with sealants providing a double protection against water leakage.

**Also suitable for  
Kitchens and Wetrooms**

## HOW FIX'NSEAL WORKS

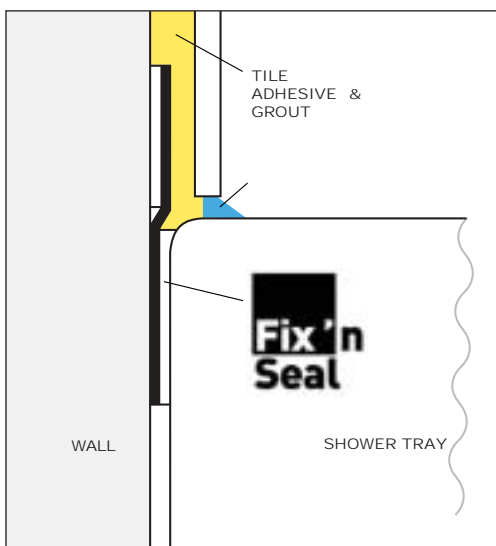

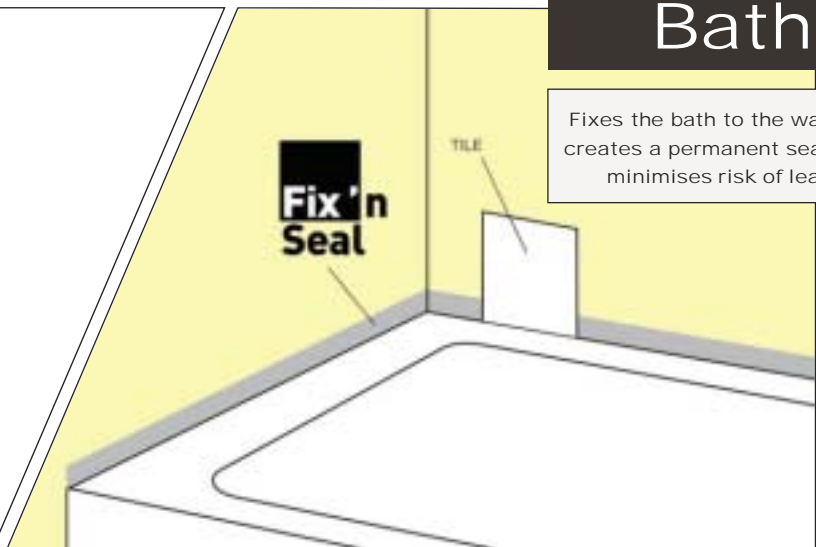

The flexible .9 mm polymeric sheet barrier is as strong as top quality DPCs

## Bath

Fixes the bath to the wall and creates a permanent seal that minimises risk of leakage.

## Shower

Provides a reassuring fix of tray to surrounding structure and ensures an impermeable seal behind tiles.
