

Dropsides

Priden alloy and steel dropside bodies are available with a wide range of options. Standard alloy plank bodies through to mesh dropside builder merchant vehicles.

Full alloy, steel, or galvanised long runner and bearer options. Floor options include hardwood, Wisadeck, alloy plank, steel or treadplate floor finish. Steel box mesh side extensions or alloy framed extensions, we can manufacture a body that suits your needs.

We offer a one stop shop facility including air kits, tail lift fit, testing and servicing, alloy toolboxes, paint, and sign writing. This service cuts out the need for costly vehicle movements and extended build times.

Priden Engineering Ltd pride ourselves on quality and offer a two year manufactures warranty on our commercial vehicle bodies. Suppliers warranty applies to such items as tail lifts.
