

Environmental Policy

DTM Technologies Ltd

DTM-Technologies based in Anglesey, North Wales. We provide a wide range of 3d modelling, 3d visualisation, animation and mapping services. We have over 15 years of experience in the field of digital visualisation. DTM Technologies, can provide a service that can collect the information needed, create and deliver high end images, film or animation and realtime walkthrough's suitable for display on many different platforms. Our data acquisition services use the very latest in technologies to provide high resolution and accurate point clouds, often used to form the basis of models we create. Being Intermap and Ordnance Survey partners, we have access to many forms of mapping data which we use to place our data within a real world context.

DTM Technologies Ltd has 1 employees and Alan Roberts has the ultimate responsibility for all issues associated with the environment in the company. We are aware of the environmental impact the company has on the environment, and we will strive to continually improve upon this position by:

- Promoting a sense of responsibility for the environment through raising the environmental awareness of guests
- Continually monitoring and reviewing the amount of waste generated by encouraging recycling and waste segregation
- A commitment to pollution prevention
- Efficient use of natural resources to reduce the net generation of carbon dioxide
- Ensuring we comply with all relevant environmental legislation
- Continual environmental improvement achieved through environmental targets and objectives implemented over the next twelve month
