## HM 2950 Stainless Steel

Maximum Sealing Length	310mm (12.5ins)
Seal Width	3mm only
Film Thickness	2 x 1000 gauge (2 x 250 micron)
Voltage	240 Volts, 110 Volt conversion
Power Consumption	300 Watts per seal
Fuse Rating	T 3.15 Amp
Footprint	374mm (L) x 161mm (W) x 190mm (H)
Weight	7.8 Kgs
Operation	Hand operated
Mounting	Bench mounted

The HM 2950 machine has been specifically designed for food, medical and laboratory applications where hygiene and health and safety criteria require an easily cleaned, moisture resistant and non corrosive sealer. This machine has a dual timer with a pre-set cooling time. Constructed from food grade 316 Stainless Steel, with a low voltage safety operation and IP rated components. This machine is used in many hospitals for packing medical samples, and also can be found in many supermarkets in the fresh fish and bakery sections. The machine comes with a spare heater bar assembly attached to the back of it to allow continuous production. It is simple to maintain with consumable spares being easy to fit and available from stock.
