Large capacity general purpose foot operated impulse sealing machines for industrial, warehousing and mail order applications. Simple bench mounting or optional stand available. This DL model has a dual electronic timer for complete control of the heating and cooling cycles. It also has a cable operated foot pedal which allows increased flexibility of installation. Another advantage is that the foot pedal is of a lever action design which helps to minimise operator effort. This machine is simple to maintain with consumable spares being easy to fit and available from stock.
