

HOT JET S: Small and powerful.

As the most compact hot-air hand tool from Leister, the HOT JET S' low weight of 600 grams (including cord and slim handle) ensures high-powered, fatigue-free welding.

Especially suited to facilitate tasks in difficult to access areas.

Hot-air hand tool HOT JET S

- The smallest Leister hot-air hand tool
- Stepless, electronically controlled temperature
- Stepless, electronically controlled air flow
- Low noise
- Flexible, integrated tool stand

Technical data

Voltage	V~	120 / 230
Power	W	460 / 460
Temperature	°C	20 – 600
Size (L × Ø)	mm	235 × 70, handle Ø 40
Weight		kg 0.4 (without 3 m cord)
Conformity mark		CE
Approval mark		UL / ENEC
Certification Scheme		CCA
Protection class II		□

Article No.:

100.648	HOT JET S 230 V / 460 W, with Euro plug
100.862	HOT JET S 120 V / 460 W, without plug
100.854	HOT JET S 230 V / 460 W, with AUS plug

Accessories HOT JET S

	107.141	15 mm wide slot nozzle, push-fit
	107.142	20 mm wide slot nozzle, push-fit
	107.144	Ø 5 mm tubular nozzle, push-fit
	105.567	Ø 5 × 150 mm extension nozzle, straight
	105.556	20 mm angled nozzle, 90° angled, push-fit
	106.996	Tacking nozzle, push-fit on Ø 5 mm tubular nozzle
	106.989	3 mm speed welding nozzle, push-fit on Ø 5 mm tubular nozzle
	106.990	4 mm speed welding nozzle, push-fit on Ø 5 mm tubular nozzle
	106.991	5 mm speed welding nozzle, push-fit on Ø 5 mm tubular nozzle
	106.992	5.7 mm, A profilee speed welding nozzle, push-fit
	106.993	7 mm, B profilee speed welding nozzle, push-fit
	105.431	3 mm speed welding nozzle, with small air-slide, push-fit on Ø 5 mm tubular nozzle
	105.432	4 mm speed welding nozzle, with small air-slide, push-fit on Ø 5 mm tubular nozzle
	105.433	5 mm speed welding nozzle, with small air-slide, push-fit on Ø 5 mm tubular nozzle

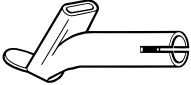

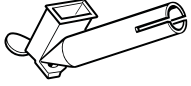

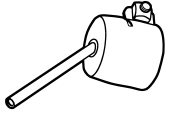

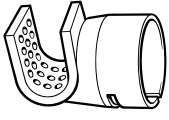

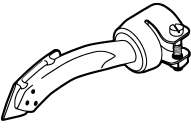

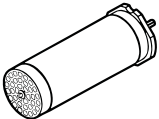

HOT JET S with angled nozzle welding a T-joint on the roof.

Fitting a solder shrink connection with the HOT JET S outfitted with a push-fit sieve reflector.

Accessories HOT JET S

	107.137 8 mm speed welding nozzle for tape welding, push-fit on \varnothing 5 mm tubular nozzle
	107.139 4.5 x 12 mm speed welding nozzle for fillet weld, push-fit on \varnothing 5 mm tubular nozzle
	107.324 12 x 10 mm sieve reflector, push-fit on \varnothing 5 mm tubular nozzle
	107.146 \varnothing 2 mm soldering nozzle
	107.151 \varnothing 4 mm soldering nozzle
	107.148 \varnothing 3 x 1.5 mm soldering nozzle, oval
	107.310 35 x 20 mm sieve reflector, push-fit
	107.311 50 x 35 mm sieve reflector, push-fit
	107.312 25 x 30 mm spoon reflector, push-fit
	107.305 15 x 25 mm ironing nozzle
	143.831 Nozzle adapter for screw-on nozzles
	100.818 230 V / 435 W heating element
	103.607 120 V / 435 W heating element

Small and handy: The HOT JET S is perfect when welding complicated details in billboard and tarpaulin applications.
