

Creating stylish and practical **workspace interiors** for organisations and businesses of all sizes within budgets of all diameters

About us

Capex work to improve your workplace environment with stylish fit-out and office furniture solutions, delivering value for money and enhancing your productivity. You focus on your core goals, while we create the space to inspire better business performance.

Capex offers a full concept-to-completion, office furniture fit-out, aftercare and ongoing maintenance service. Sourcing from a wide range of top UK and European office furniture manufacturers, we deliver schemes of exceptional quality – whatever your size or budget.

We've been doing this since 2005, when our original directors, Geoff Marshall and Ray Allinson, pinpointed a need for a turnkey office furniture service among both SMEs and FTSE corporates.

Since then we've continued to foster great loyalty among our clients, who return whenever new projects arise, impressed by our commitment to providing one-stop, all-in office solutions. And our reputation precedes us: recommendations and referrals see us constantly winning new customers and friends.

Today you can benefit from our skills and experience. With all projects overseen by senior management, we'll expertly create or amend CAD drawings, often working onsite for design precision and personal input. And all schematics and layouts are provided at discretion without cost to you.

Our process

At Capex we have an enviable and justifiable reputation for quality, value and style. Our processes cover every facet of workplace migration and change, which we tailor to suit each project: design and planning, interior construction, office furnishing, move management and aftercare maintenance.

Workplace Specification

- Preliminary survey and agree client requirements
- Discuss interim budget

Project Solution

- Supply design, CAD drawings and scheduling
- Identify furniture range, partitioning, ceiling, lighting, flooring etc.
- Confirm budgets
- Agree contract parameters

Compliance

- Health & Safety procedures
- Building regulations
- Insurance
- Site safety

Furniture & Fit-out

- Responsible for work undertaken
- Project manage fit-out with QC procedures
- On completion of fit-out, site clearance and clean

Workplace Re-location

- Implement moving from start to finish
- Supply crates, identify and label individual work areas for ease
- Provide labour for packaging and relocation
- Organise data and line activation

Maintain & Service

- Final inspection
- Post completion maintenance
- On hand for all your future workplace/office requirements

You'll see fascinating new style and colour options from major furniture and partition manufacturers. Schematics will show positions of desks, meeting rooms, breakout areas, kitchen and cafés etc, identifying all lighting, data and power outlets.

On your feedback we'll then produce detailed CAD plans, 3D illustrations and colour boards to illustrate materials and fabrics before agreeing your final requirement.

Office design

At the start of your project we'll help you clearly identify your present and future personnel furniture and storage requirements. Overlaid against CAD drawings produced by us or an architect, we can then establish the viability of proposed changes to your work environment.

Office fit-out and refurbishment

Are you freshening up your office with new colours or wall fabrics? Planning a reconfigured suite? Creating a stunning new greenfield site? We'll minimise the time and fuss, organising works to deliver the best possible results at the right price.

To avoid disrupting your office routine, our skilled teams are happy to work nights or weekends. Post fit-out, we're delighted to continue with ongoing maintenance and decorative works. And we complete our projects to the highest standards, complying with all formalities of H&S and regulatory documentation.

- Partition offices
- Suspended ceilings
- Carpet-tiled floors
- Kitchen areas
- Window blinds
- General decorative tasks

Office furniture

Continuity, service and innovation for every area of your workplace. Choose from a huge range of quality furniture styles and marques from leading UK and European manufacturers.

We have no brand bias: we simply have a selection process that offers the marketplace's widest variety of options, ensuring the perfect balance of style and budget. We can also create bespoke furniture for individual design or space requirements.

- Desking
- Seating
- Screens
- Boardrooms
- Reception
- Storage
- Canteen
- Breakout areas
- Training rooms

I have found Capex Interiors professionalism to be of the highest level and each project they have completed for me has been a success. Within an extremely short time frame Capex Interiors managed a complete re-stack of our offices that enabled us to significantly increase our desking and meeting room capacity with a very high quality fit-out, on time, on budget and most importantly the staff like it!

Julian Wilkinson, Premises and Facilities Manager, Family Investments

We have used Capex's services on numerous occasions and have always been satisfied with their work. They are always happy to help and are very prompt when site visits are required. All work done on our premises is completed to a very high and professional standard.

Becky Waller, Disney's Blackrock Studio

Capex Interiors have delivered timely and cost effective services to my business over the past 5 years. They have provided planning assistance, new furniture, renovated old furniture and have dealt with the relocation of our offices and various departments over the years. I would not hesitate to recommend Capex for a professional and friendly service.

Bob Bond, CEO, Rydon Construction

With an urgent requirement to fit-out a call centre, Capex were able to respond immediately and whilst listening to our requirements they actively advised us the best options. With their experience we were able to increase the size of our call centre within the same area. They met our deadline and budget within a short time frame adding value to our business.

Martyn Lindsay, Chief Financial Officer, Fundraising Initiatives

I want to put on record my appreciation of the work done by Capex Office Interiors Ltd. in the relocation of the teaching and learning operations at Tonbridge Grammar School. From initial contacts and surveys to preparation and execution the approach taken has been proactive, positive and co-operative. During the very hard work involved in moving material among the various buildings, Capex's operatives have remained punctual, courteous and strong! I have been particularly impressed with the initiative shown by the supervisors, and by the care they have taken with the School's equipment. In my opinion, Capex has proved an excellent choice for the task.

David Wells, Bursar, Tonbridge Grammar School
