Activant (Mastercat)

First to market with New To
Range products

Welcome to Universal

With over 30 years experience in the automotive industry, Universal has the knowledge and expertise to supply your requirements. Our product range consists of over 3500 part numbers. We have two ranges of products available. One is our exchange range, and the other is our brand new range that now consists of over 1500 part numbers.

We cover not only for the car and commercial market, but more specialised markets such as Agricultural, Aviation, Fork trucks, High Output, Lawn Mower, Marine, Motorcycle and Plant.

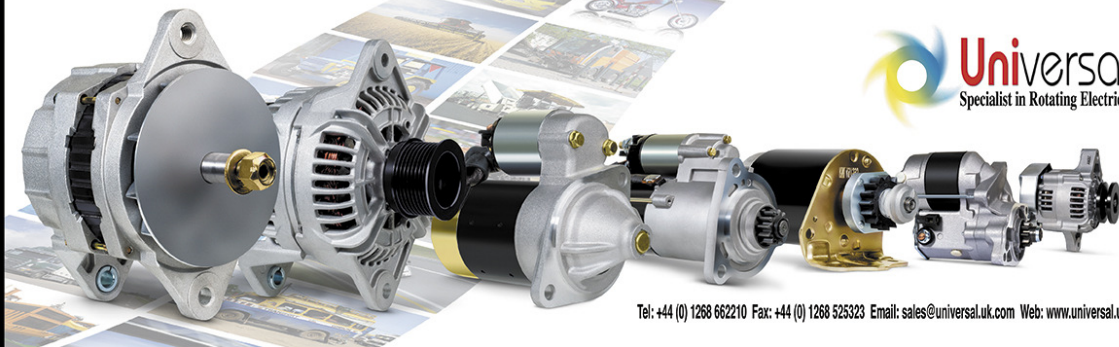

At Universal our remanufacturing workshop is fully equipped with the latest computerised testing equipment, assuring the very best in quality as our main priority.

Also available is our free technical helpline and after sales support and backup service. Feel free to talk to one of our technicians-just ask to be transferred to technical support when you call us on +44 (0)1268 662210.

With our own fleet of vans we deliver to local trade customers and use recognised carriers that distribute for next day overnight orders. We also export too many countries worldwide.

Our website is user friendly showing detailed product information, including product pictures and wiring diagrams.

With over 70,000 references within our database we are confident we will have the part you require.
