

Bespoke School Furniture Ltd

2013-14 Brochure

Manufacturers and Suppliers of Quality Key Stage 1 and Foundation Stage furniture.

Early Years

Assisted / Back to Back Units

All assisted units are designed so that they can be placed against a wall, table or pillar and give a space saving effect. There are no sharp edges or corners that can cause damage to a young child. Every angle has been specifically curved to avoid sharp edges. This is paramount in the health and safety of young children.

All of these units must be back to back with another back to back unit or fitted up against a wall or supported by a table.

This is our new range of furniture which has been specifically designed for use in your Nursery, Reception and Early Years Units. These units are made to a height of 740mm which enables Teachers and other support workers to observe your children without the worry of wondering where our little ones have got to.

Free Standing Units

Free standing units are designed to be moved into any classroom situation. Unlike the assisted units, these are completely free standing and do not need to be placed against anything else.

Tables

All tables come in maple and beech as standard. Other colours are available upon request. Height adjustable legs come in Chrome as standard. Please specify your required height upon placing your order.

Mobile Units

Our range of mobile units are designed to be moved into any classroom situation. These units are designed to be completely free standing and are mounted onto durable plastic wheels or castors and can easily be moved around your classroom to create the space you need.

Replacement Parts

We appreciate that sometimes things can go wrong with furniture either by misuse or just wear and tear. That is why we have introduced our Replacement Parts and Spares Ordering Service so that you can renew instead of buying new. If you are in need of a certain part of a unit then please get in touch with us on 01484 304281 or by email at info@bespokeschoolfurniture.com to let us know what you need. This service is available on all units manufactured by Bespoke School Furniture Ltd and also selected units purchased from other Early Years suppliers like Early Excellence and Foundation Furniture.

Keep checking this page as we will be shortly releasing a detailed list of common items (complete with photos) which you may need during the life of your units. This could be something big like a new end panel, backboard or shelf, or even down to the smaller consumables like book rails, hooks and safety proof mirrors. What ever your need, we are here to help you save money and keep your children enjoying the furniture you have invested in.
