Profile Since our formation in 1983 P+P Non-Ferrous have amassed a wealth of experience and knowledge. Over this time we have consistently achieved and exceeded our clients' expectations.

Our head office is situated in Birmingham, placing us in the heart of the UK. We also have a regional office in the home of steel, Sheffield, giving us coverage of the whole of the UK.

Privately owned by experts in the industry, consummately professional, boasting an enviable retention rate, we always put the customer first. If you only make one call this year, make it to P+P.

Quality Joining together our cutting-edge technology with the finest raw materials, we are proud of every product we deliver. We are also ISO 9002 approved, ensuring the standards we work to.

With a recent investment of over £120,000 on machinery, the tolerances we can now achieve are second to none. The consistent cut will almost certainly reduce your machining time and costs.

We work long and hard sourcing quality metals so you don't have to. All of the stock we supply is of the highest quality. Our ISO status allows full traceability of our products.

Knowledge Our sales team have 200+ years of combined engineering expertise, enabling a deep knowledge of your order's technicalities. If you are unsure on any specifics we are here to help.

With a whole range of different metal variants we understand that it can become confusing. Our sales team will understand your needs and talk you through the appropriate options.

Understanding the grade of metal which is best for your job is second nature to us. Our help and advice are free with every order, so you can rest easy knowing that your product is fit for purpose.
