

Ropeplay

Activity Nets

This exciting range of activity nets start with a 2 metre high single mast active 2000, suitable for children age 3-7 years, up to the giant 6 metre high twin mast active multi 6000, which is suitable for children from 5 years to 105 years.

All of these rope structures are manufactured and tested to exacting standards using specialist machinery and highly skilled operatives. Colours available are red, green, yellow and blue, they can be made in single, two tone or triple colour variations at no extra cost.

Each net is fully assembled and quality checked before despatch ensuring that all nets are quality assured safe and ready for use.

Cone Climbers

Cone climbers are rotating 3 dimensional climbing structures available in heights of 1.8 metres, 2.4 metres and 3.3 metres, offering great play value for children 3 years and upwards.

Cone climbers add a new dimension to play areas of any size, and are particularly suited to smaller schemes where space and value are paramount

Ropes & Nets

All rope components on our play areas are manufactured using steel reinforced rope, which is extremely strong while offering durability with excellent abrasion resistance. Available in a range of colours and the choice of end fittings and plastic or aluminium connectors we are able to provide nets and ropes of all shapes and sizes.

All manufactured to safety standard BSEN 1176-1 1998.
