

## Roundabouts

A favourite in playgrounds for generations, roundabouts can be enjoyed by the younger more cautious, or the older more daring of children.

Manufactured from powder coated steel they revolve on large taper roller bearings and are available in 1.5m, 2.0m or 2.5m diameters in a wide range of colours.

2.5m Roundabout

2.0m Roundabout with seats

1.8m Saturn whirl

## Saturn Whirl

An alternative to the traditional Style roundabout the 1.8m diameter Saturn whirl puts a different spin on revolving play.
