

Custom made commercial sail shades

Our commercial grade sails are manufactured to order, they are available in 14 contemporary colours offering 96% shade factor and a 10 year UV warranty.

The perimeter of the sail is reinforced using a 50mm wide webbing.

The corners features heavy duty stainless steel fixing brackets.

All fixing posts are galvanised steel, set in concrete foundations.

They are set at different heights, this creates an architectural twist enabling correct tension and reducing water collection.

Posts can be powder coated to any colour.

Colour	UVA%	UVB%	Mean UPF	Shade factor %
Midnight Green	95.7	95.5	23	91
