About us

Wedge Group Galvanizing is the UK's largest hot dip galvanizing organisation. We have 14 plants across the UK enabling us to offer you a truly national service for all your galvanizing requirements.

Our continuing investment in new technology and equipment, together with our commitment to customer care ensures that we offer you 'Excellence in Galvanizing'

The Group can process anything from small components such as nuts & bolts, right the way up to 29 metre structural beams. Our plants are designed and equipped to set industry-leading standards for sustainability and low environmental impact.

Benefits of Galvanizing

Galvanizing has long been seen as the most environmentally-friendly finish available to prevent corrosion. The coating is highly sustainable and produces minimal waste. Depending on the environment it is used galvanizing can give your products an expected maintenance free life of 40 years or more.
