Go keyless with the new reversible fingerprint door lock!

Information

Keyless entry is the technology of choice in today's consumer security products. This high-quality Keyless Fingerprint Door Lock offers 3 different ways to open your door:

- Fingerprint
- Password
- Mechanical key

Using biometric technology, this lock grants you access to your home or property by simply scanning your fingerprint. Able to memorise up to an astonishing 500 different fingerprints, all that you and your employees or loved ones need to do is hit the zero key and place your finger on the door lock's scanner to be let in instantly.

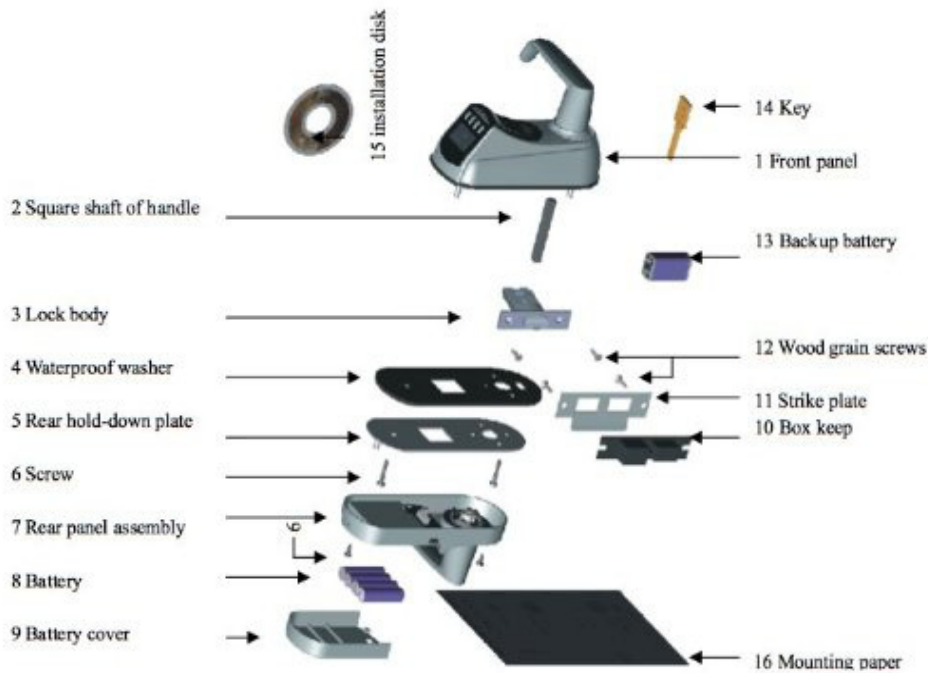

The L7000 can also work with a PIN code or mechanical key (for emergency use). No need to worry about complicated programming either, as this lock requires zero computer programming.

Characteristics:

- Maximum 500 fingerprints and 100 passwords
- Comes with a USB port (USB stick is not included) for downloading records and software upgrade
- 3 user privilege's:
 - **Super administrators:** access to all system functions and system settings.
 - **Administrators:** access to all operations except advanced settings.
 - **Ordinary users:** access to the fingerprint matching and unlocking functions.
- Reversible handle (for right or left-handed installation)
- Add a new user in seconds
- No computer programming required
- No keys to hide, carry, lose or forget
- Appropriate for door thickness: 35mm-70mm.
- 3 different ways to open: fingerprint, password and mechanical key (for emergency use)
- America style, using international standard single latch

Product dimension (L x W x H): 85 x 72 x 68.7mm

Shipping

Please note that we will only deliver to addresses that are registered with PayPal. We use the Royal Mail's 1st class delivery service which means your parcel should arrive the next day. Occasionally it may take a little longer but please note that the Royal Mail doesn't consider a parcel "lost in post" until 15 days after it has been posted. If your purchase hasn't arrived within the 15 day time limit, we guarantee we'll either send you a replacement or refund your money.

The choice is yours!
