Rubber Expansion Joints - JP01

Applications:-Mountable on pipe work to absorb - Expansions, Contractions, Oscillations & Vibrations. Diminution of : Hammering, Noise & Electrical Conductivity.
Typical uses are :-For Water Services within the specification as shown below.

General Specifications:-

Temperature Range -15°C to +75°C (Other Temps on Call)
Vacuum 740mm Hg
Pressure 16 Bars at ambient
Connections PN10 (to 150mm) & PN16 (150mm+)
Casing Sleeve Neoprene + reinforced canvas nylon
Flanges Dip Galvanised Steel
