

## Kingston Encrypted Solutions

Your essential guide to encrypted data storage

# Are you **GDPR** Ready?

The General Data Protection Regulation is a new EU legislation which aims to strengthen and future-proof data protection rights throughout the European Union and beyond.

## Did you know?

By 2018 businesses must comply with the new GDPR or they could face fines of up to €20 million or 4% of annual turnover in case of a data breach

The GDPR isn't just aimed at EU based businesses, but all organisations which process data of EU residents

The average cost of a data breach increased by 23% since 2013

**€3.7m**

The average cost of a data breach for large organisations in the EU

**2016**

Adoption of the new regulation. Businesses have 2 years to comply

**2018**

Complete implementation and strict enforcement of the EU GDPR

**Protect your business and secure data on the move with our encrypted solutions**

# Encrypted USB Flash Drives

This is just a selection of encrypted options Simms has available. Should you be looking for something specific or cannot find what you are looking for, contact your Simms account manager on [01622 852 800](tel:01622 852 800) or email [sales@simms.co.uk](mailto:sales@simms.co.uk)

## Simms offers a wide range of additional services for certain products which include:

### Technical Support

Our technical team are experts in memory and storage who deal with engineers daily. Between them they have over 90 years of experience.

### Deal/Project Registration

We offer a project registration service ensuring that costs are reduced, supply is managed and the build of materials is locked down giving you a competitive price advantage.

### Market Development

We offer partner marketing programmes for our vendors and customers which includes incentives, POS, catalogues, direct mail and e-updates.

### Configuration support

Our technical experts can help you configure your device to ensure optimum performance.

### Customisation

Some of the products we offer can be customised. Co-logo, serialisation, content load, casing colour, artwork and packaging are some of the options available.

### Quality

Simms is ISO9001 accredited. All of our vendors follow strict industry manufacturing and quality guidelines. All are RoHS and REACH certified.

### Special Price Notification

We can secure special pricing on large quantities of memory and storage so you are price protected up to a month depending on product.

### Obsolescence / PCN

Simms offers Obsolescence and Part Change notification for most of its products to manage buying cycle and Last Time Buy options for your systems.

### RMA

We offer a repair, replacement or exchange service on all our SSDs, subject to terms and conditions.
