

IF IN DOUBT ASK

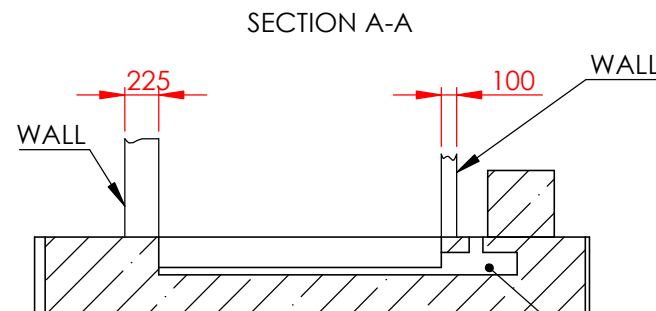

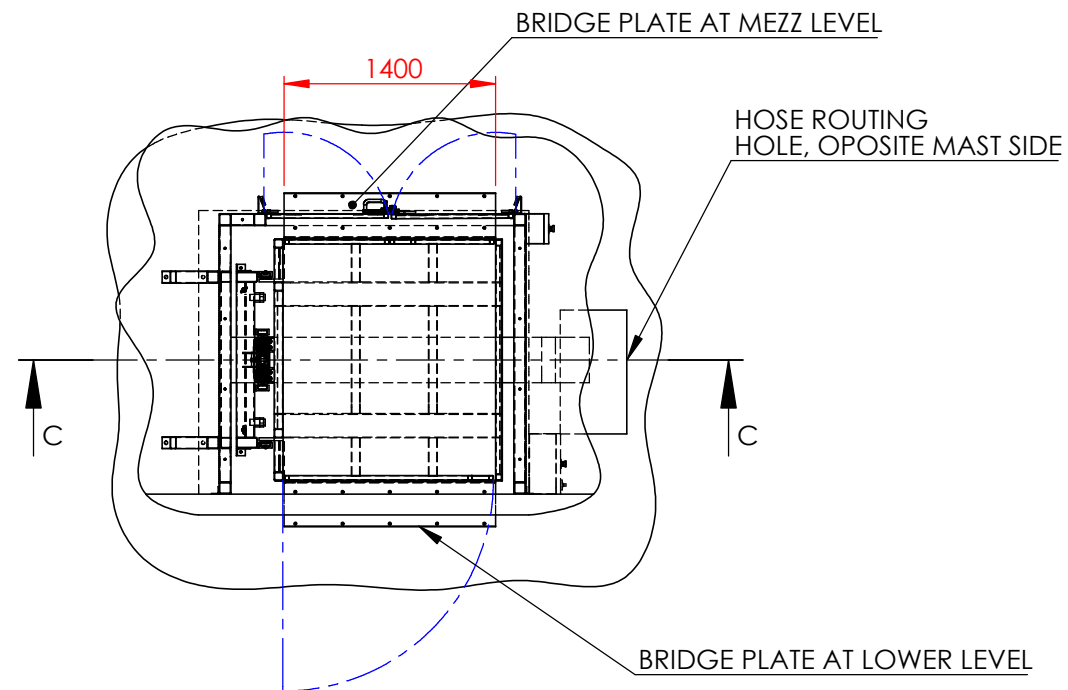

**2000kg capacity GOODS ONLY HLP1**  
 1500mm x 1400mm useable platform area,  
 1600 x 1510mm overall platform area,  
 1620 x 1770mm overall footprint (including mast)  
 Single interlocked gate on one 1510mm side (adjacent to mast – lower level access)  
 and twin interlocked gate opposite (other 1510mm side – upper level access)  
 1100mm Hand rails to other two sides (mast side and opposite mast)  
 2760mm floor to floor travel (the lift will be pit mounted –  
 200/250mm platform thickness/pit depth)  
 100mm/s Lift speed  
 Latching controls at both levels  
 Mast pre-wired  
 Customer to provide pit with trench under for routing of hoses  
 Overload protection, anti-slip surface, maintenance stops & manual emergency lowering  
 The upper level enclosure is 1600mm high with twin gates  
 The client is supplying fire doors at the lower level for which AH will supply interlocks  
 The mast will be bolted to the wall in the lift shaft
