Innovative Partners

Hydraelectric Group Ltd is a specialist manufacturer of premium quality flexible hoses and supplier of standard and modified solenoid valves, pumps and water controls. The company is technology driven and led by a cooperative approach to solution design.

We have developed a successful business model to suit OEMs across a broad range of sectors, working closely with their technical teams to design and develop bespoke, innovative solutions for the control and delivery of water. We can support OEM customers' development requirements through core competencies such as research and development, product testing and compliance, and supply chain management, and offer a high level of customer service and post-sale support.

With a product range that meets the needs of a broad range of commercial and domestic water control and delivery applications, it is the added value we offer in helping our customers receive the best solution for their specific need that sets Hydraelectric apart.

Standard Products

Flexible Hoses

We offer a proven range of WRAS approved flexible hose assemblies designed for potable water applications in a wide range of commercial equipment and domestic applications.

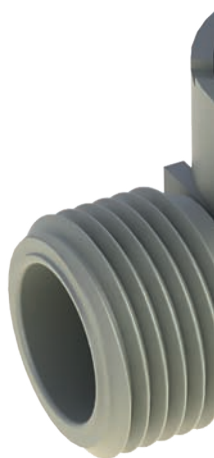

- Classic, Excel (PEX), and Hydravend hose ranges
- WRAS approved for hot and cold water
- End connections comply to industry standards
- Pushfit options
- Elite range for HEVAC applications

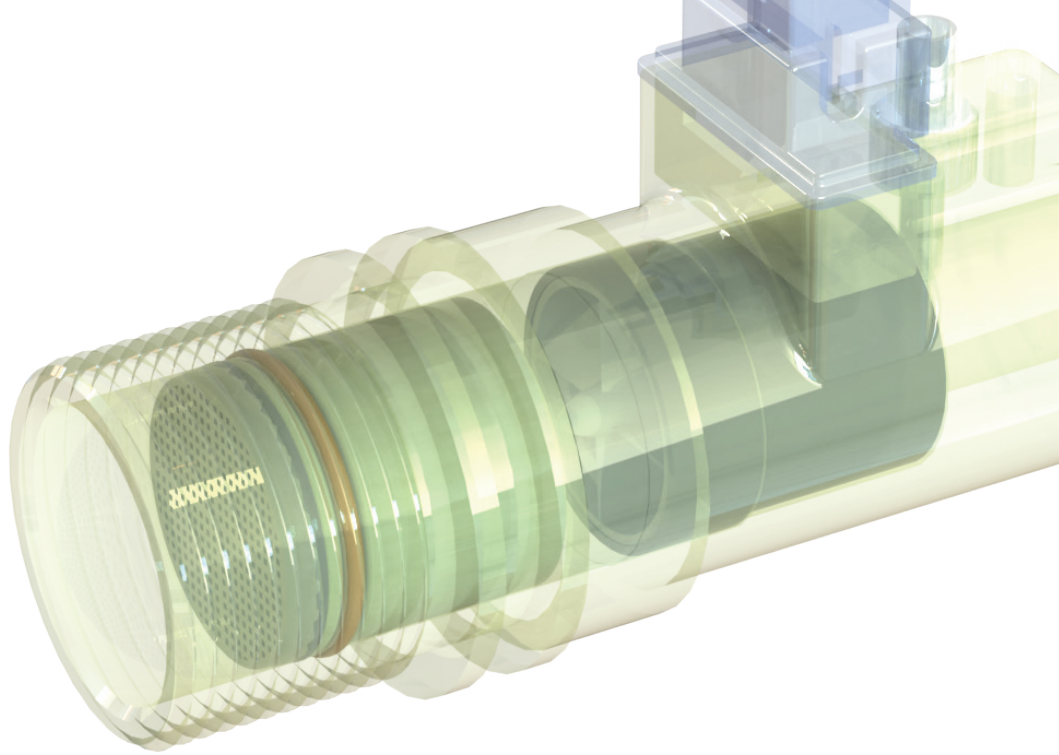

Solenoid Valves

Our established range of mains water and low pressure solenoid valves is designed to suit diverse requirements.

- Single and double valves
- Proportional solenoid valve (patent pending)
- 90 and 180 bodies
- WRAS and ENEC approved
- NSF and UL optional
- Low voltage options
- Pushfit or threaded ports
- Flow regulators, filters and NRVs available

Bespoke Solutions

A Range of Benefits

We have built our reputation by working with OEM product engineers to successfully design and develop solutions to meet their specific requirements.

Clients can access a wide range of benefits that make up our Value Proposition – the distinct skill set that differentiates Hydraelectric within the market.

We have structured the company to provide the benefits customers need and value in each of five key areas:

- Technical competencies
- Solution design and delivery
- Product sourcing and supply chain management
- Production tooling and process management
- Customer support
