DT269

Duct Mount Digital Relative Humidity & Temperature Transmitter

The DT269 transmitter has a I7000 Hygrosmart module. Thanks to this solution, the sensor can be changed on site quickly and simply, providing greatly reduced maintenance costs. The transmitter does not need recalibration after the sensor is changed.

Highlights

- Designed for accurate measurement in a controlled environment
- Based on the interchangeable Hygrosmart module
- Temperature output scaling configurable on request
- · Linearization for a specific isotherm on request

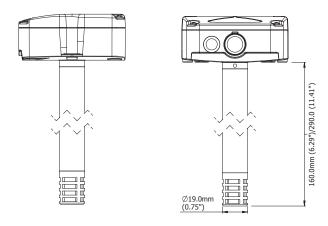

Applications

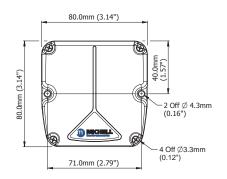

- HVAC
- Pharmaceutical
- Meteorological
- Environmental Agriculture
