

# OILGEAR

## BEST UNDER PRESSURE

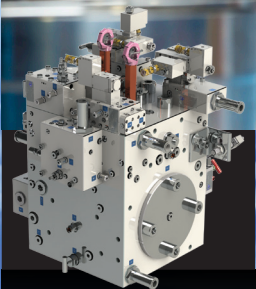

### Customer Services

#### As new quality with a fast response

When hydraulics are the life blood of your business, you need a maintenance partner with almost 100 years' experience in the field. Oilgear offers a proactive approach to your maintenance requirements; planned downtime, integrated aftermarket service packages and expert engineers can safeguard the efficiency and profitability of your systems. At Oilgear, we work best under pressure, so that you can too.

#### Replace

When it's time for a change we can design and install replacement systems which fit to your footprint and rejuvenate your facilities.
