

the Büchi «minipilot» family

Equipment for scale up studies and small scale production

fully corrosion resistant
explosion proof
compact
versatile

scrubber

For exhaust cleaning

reactor

For Multiple chemical reactions

- 5 – 15 liters interchangeable reactor vessels
- -1.0 to + 1.0 bar in vessel
- -60°C (-90°C) to +200°C

filter

For Filtration after the reaction
