

# Oasis Elite Trendelenburg System

NEW

Suitable for surgeries using up to 40° tilt

The **Oasis Elite Trendelenburg System** has been developed to overcome the challenges presented by the Trendelenburg position, primarily patient slippage, nerve injury and the formation of decubitus sores.

- Exceptionally comfortable gel and foam combination which offers restraint-free pressure relief and stabilisation of the patient
- Unique dual-layer, integrated gel structure conforms to the shape of the patient, improving immersion and comfort
- Combination of memory foam and latticed gel cells provides maximum pressure relief
- Advanced carbon composite shoulder supports provide additional comfort and stabilisation for steeper procedures

Recommended for Abdominal, Gynaecological and Robotic-assisted surgery

AneticAid

# Operating Table Accessories
