

TurtleSkin CP Insider 330

Outstanding puncture resistance, including over the fingertips

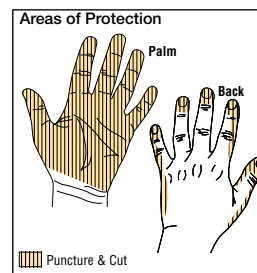

- Level 4 cut protection, excellent puncture resistance and amazing dexterity
- Puncture protection for the palm and fingertips
- Features a new, patented, ultra-thin TurtleSkin protective material which offers outstanding puncture protection from needles and fine sharps at a previously unachievable price point
- Thin enough to be worn as a liner glove inside traditional safety gloves or disposable gloves
- Designed specifically for demanding applications like waste management and recycling

Glove Features:

- Can be used as an insider glove to add puncture and cut resistance to your glove of choice, even a disposable glove
- Excellent puncture resistance to needles and fine metal, glass and wire
- Ultra-thin protective material offers excellent dexterity
- Glove can be machine washed

Use For:

- Recycling
- Waste Management
- Glass and Metal Handling
- General Workwear
- Cleaning and Janitorial work
