

Atlas (basic awning system)

Available as an open awning system without fabric cover shell and top board.

The area beneath is free from posts, beams and cords.

Elegant design with superior strength and longevity by German Engineering combined with affordable cost makes it in highest demand with our domestic and commercial customers.

Hinged arm joint

The plastic-coated double cables are designed for an extremely long service life,

-No soiling of the greased cables caused by exposure to the environment.

-Arm profile and cables of the same colour.

Front profile bracket

The optional fabric cover shell offers an elegant solution for concealing the fabric roller.

Joins the arms securely to the front profile and permits adjustment of the angle.

Atlas (basic awning system)
